“Power Engineering Africa towards 100 GW”

Covering all aspects of renewable energy development, large scale and peaking power generation, HVDC and HVAC transmission, distribution technologies, customer utilization and efficiencies, including automation, instrumentation, control, power electronics, machines, quality of supply, and protection.

PowerAfrica 2007 will be held in South Africa, the organizer of the 2010 Soccer World Cup, on the campus of the University of the Witwatersrand, in Johannesburg.

Original papers will be featured. There will be several panel sessions as well as individual presentations. The conference will be supported by an exposition; country exhibits showing investment opportunities and OEM supplier exhibits in support of the themes above. Several IEEE tutorials, poster sessions, technical visits and companion tours will be arranged.

Submission of papers: The working language of the conference is English. Each accepted paper must be presented at the conference and the final manuscript must be accompanied by paid registration. All papers must be submitted in IEEE electronic format. Instructions and full information on the conference will be posted on the conference website. Anyone wishing to propose a special session or a tutorial should contact Ron Harley by November 1, 2006 at ron.harley@ece.gatech.edu.
