

Final Newsletter IEEE PES

Trondheim PowerTech 2011

The Final Program with chairs is now available

The final program with program chairs is now available on our web site <http://ewh.ieee.org/conf/powertech/2011/> under “Program”. Minor changes were made since the previous version.

Opening session

Dr. Klaus Rave, chairman of the Global Wind Energy Council (GWEC) and Vice President of the European Wind Energy Association (EWEA) will give the keynote presentation “Integration of wind power in the European power system” instead of Artouros Zervos. We are very grateful for Dr. Rave to step in at very short notice.

Technical Tours

There are still some places available on both technical tours. If it is compatible with your conference program, you might consider joining one of these interesting tours. You can do this on the web until Friday morning, or on site when you collect your conference bag. In this case you must pay by credit card.

Accompanying persons guided tour through Trondheim

There are also some place left on this tour on Monday morning. This is a guided walk through central Trondheim, ending with a simple lunch. A nice way to get to know the basics of Trondheim and come into contact with other participants. Check the web site for further information.

Latest weather forecast

The weather forecast is mixed – we’ll probably have some nice spells but also a shower or two. Don’t forget your umbrella!

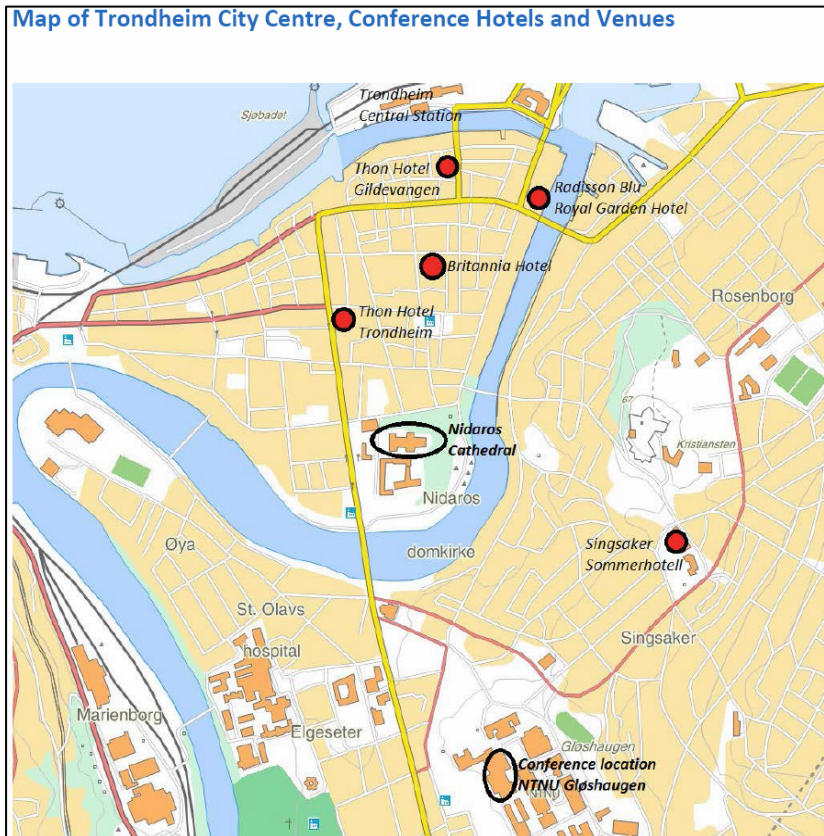

You’ll find an updated forecast on <http://www.yr.no/place/Norway/S%C3%B8r-Tr%C3%B8ndelag/Trondheim/Trondheim/>
