SmartGrid Vision

Vision

“the act or power of anticipating that which will or may come to be”

Automation

“the replacement of manual operations by computerized methods”

Engineers with Vision

1. Louis Windsor
2. Paul Baran
3. Doug Staszkesky

Louis (Duke) Windsor – AP&L

“If it can be defined then it can be accomplished”

Paul Baran - Metricom

“On Distributed Communications Networks”

“We would envision the use of low-power, mass-produced microwave receiver/transmitter units mounted on low-cost, short, towers”

Manuscript. received October 9, **1963**

Doug Staszkesky – S&C Electric Co.

A career dedicated to the industry and automation.
