You are invited to a meeting of the PES & IAS NY Chapter and the NY LMAG on:

Electronic Sprinkler System & Autocall Fire Alarm

Tuesday, November 28th, 2017

THE PRESENTATION:

The first half of the presentation will review a new technology developed for sprinkler protection in warehouses that store exposed expanded Group A commodities and do not require in-rack sprinklers. This new technology allows a heat sensor to activate a sprinkler allowing a fire to be quickly controlled. The second half of the presentation will review addressable notification systems and device self-testing features. Features and design advantages such as flexible wiring architecture of addressable notification and scheduled self-test appliances will be discussed.

THE SPEAKERS: **Seth Wood** - Johnson Controls NE Business – Fire Suppression Products;
Elizabeth Conha Schoonman, Johnson Controls – Global Fire Detection Products

Seth Wood has been working for Johnson Controls for 14 months and prior to joining Johnson Controls he worked as a fire protection consulting engineer in Boston, MA for 12 years. Seth has experience working on different types of buildings that are located throughout the world. As a Business Development Manager, Seth works directly with Engineers and Architects in the Northeast to assist them with technical questions, design assistance, specification reviews and presentations on different product lines that Johnson Controls (Tyco and Ansul) offers.

Elizabeth Schoonman helped to establish and launch the Commercial Wireless Systems International (CWSI) Fire Alarm brand. In 2007 Elizabeth joined CWSI as Director of Marketing. She held various positions with CWSI, including Director of Sales, before the Tyco Fire Protection Products acquisition in 2014. Elizabeth went on to a Business Development Role with Tyco Fire Protection Products prior to the Johnson Controls/Tyco merger in 2017. Elizabeth currently works in the Global Detection team as a Business Development Manager for the Americas.
