

IEEE THE INSTITUTE OF ELECTRICAL AND ELECTRONICS ENGINEERS, INC.

Vehicular Technology Society

Join the NY Section of the Vehicular Technology Society for

Rail Technology Forum

Featuring: **Mr. Albert Santini, PE.**, will be awarded the VTS NYC Distinguished Service Award for his outstanding contribution to the Metro North Railroad's signal engineering and Maintenance of Way projects.

Mr. Gene Sansone, Senior Consultant, Rail and Transit, JACOBS NYC, will present and discuss the evolution in design of NYC subway cars, and its resulting impact on operations and customer experience.

Ms. Janice Li, PE., Practice Lead, Rail and Transit, JACOBS NYC, will present and discuss development of life cycle management methods, and approaches for protecting typical transit/ rail assets.

Gene Sansone is a senior consultant at JACOBS' Rail and Transit Engineering team, and currently supports clients and transit agencies at BART, MTA NYCT, PATH and TTC. His transit career began 51 years ago as a field engineer at Westinghouse Electric. Prior to joining JACOBS in 2010, Gene spent 37-years at NYCT in various roles before retiring as Division of Car Equipment Chief Mechanical Officer. During his tenure at NYCT, he managed and ran capital and maintenance programs including procurement of 3,500 new technology subway cars, and development and implementation of advanced type maintenance regimes. Gene holds a BSEE from Kansas State University and MBA from Iona College, he is a published author, and adjunct professor at NYU lecturing transportation classes.

Janice Li, PE., is a Practice Lead at JACOBS' NYC Rail and Transit Engineering team. She specializes in management of transportation type projects with focus on asset management, strategic planning, system integration, O&M, and process improvement programs. Janice began her transit career at Amtrak 26-years ago, where she served in various engineering positions. Her recent projects include an oversight of P3, DBOM, and Design-Build programs. Janice holds a BS in Industrial Engineering and MBA, including an American Society for Quality (ASQ) Certified Six Sigma Black Belt, and Envision Sustainability Professional (ENV SP) Certificate by Institute for Sustainable Infrastructure.

When:
Thursday, June 28, 2018
5:00 pm – 7:00 pm

Metro North Railroad Office,
12th floor, conference room C-D
420 Lexington Ave
New York City, NY 10170

Where:

Refreshments will be offered at 5:00 pm, presentation starts at 5:30 pm.

- ✓ The forum is free and open to all IEEE members as well as non-members.
- ✓ 2 hours of PDH credits available. Fee for the PDH credit award is \$9. Payments by cash only.

Please note advance registration is required for admission. Please register by email muamer.dedovic.us@ieee.org.

Registration ends at COB, June 25, 2018. Additional information regarding program specifics can be obtained by contacting Mr. Muamer Dedovic at 347-470-4337 or by e-mail. Please bring proper identification for building access.
