

LECTURE ON SMART GRID, AMI AND SMART METERING

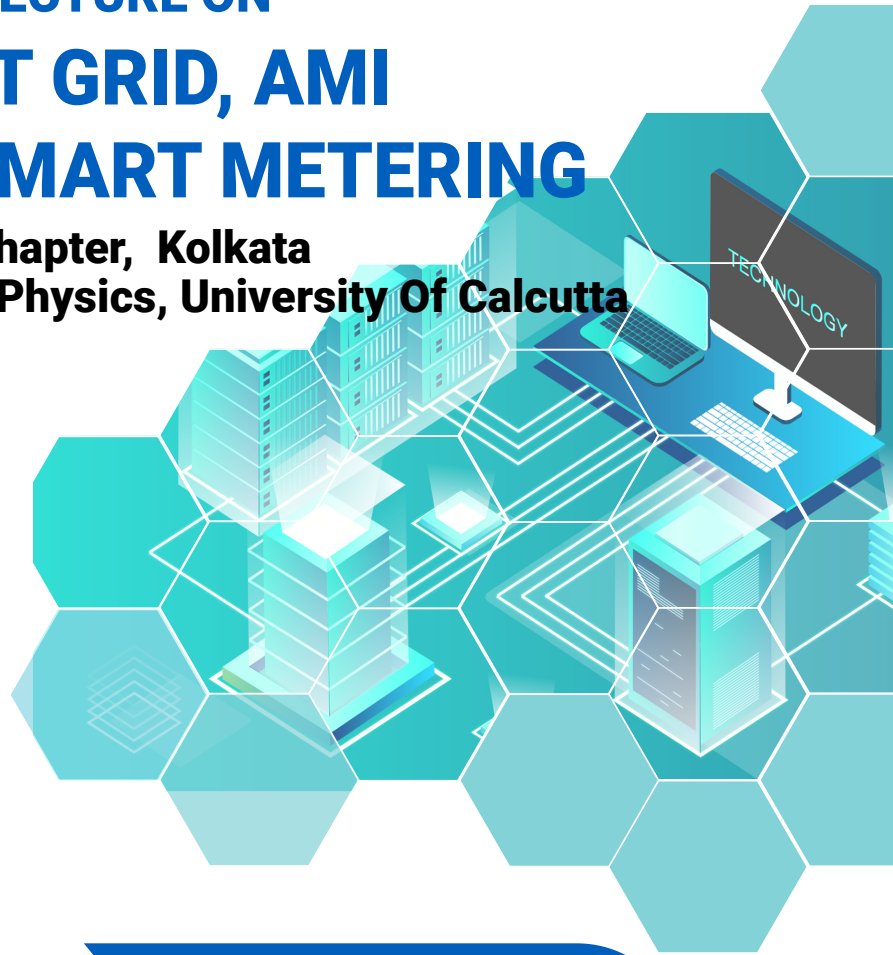

Organised by: **IEEE Joint CSS-IMS Chapter, Kolkata**

In Collaboration with: **Dept. of Applied Physics, University Of Calcutta**

FEB 3, 2020

5:30 pm

**Seminar Room,
Dept. of
Applied Physics,
University of
Calcutta**

Speaker: Subhadip Pal

currently head of Application Engineering Team of Landis + Gyr India. He is responsible for Design & Development specific to Indian power industry requirements. Earlier, he was in Technical Sales at the same company. Formerly as an employee of CESC Limited, he has worked for 10 years in various departments of CESC power distribution. He pursued Electrical Engineering from the Department of Applied Physics, University of Calcutta.

Content of Lecture:

- ★ What is Smart Grid
- ★ Why it is important
- ★ A small overview
- ★ AMI – basic block
- ★ Smart Metering – an overview
- ★ Initiative in India
