

REPORT: WIE Event 6

Name of the event: Technical Lecture on “VLSI Design of Cellular Automata (CA) based Coding”

Speaker: Dr. Jaydeb Bhaumik, Associate Professor, Dept. of Electronics & Telecommunication Engineering, Jadavpur University, Kolkata, India

Date: December 12, 2017

Venue: A K Choudhury Auditorium, CAS Building, Dept. of Radio Physics and Electronics, University of Calcutta, India

IEEE WIE, Kolkata Section jointly with Electron Device Student Branch Chapter, University of Calcutta, organized a Technical Lecture on “**VLSI Design of Cellular Automata (CA) based Coding**” on **December 12, 2017**. The Technical Lecture took place at **A K Choudhury Auditorium, CAS Building, Dept. of Radio Physics and Electronics, University of Calcutta, India at 12:00 noon**. **Dr. Jaydeb Bhaumik, Associate Professor, Dept. of Electronics & Telecommunication Engineering, Jadavpur University, Kolkata, India**, was the speaker of this technical talk. Faculty members, Research Scholars and PG students from the Dept. of Radio Physics and Electronics, University of Calcutta, had participated in the said event. All the participants, especially research scholars showed their keen interests in the aforementioned area. Question-answer session was really interesting.
