

Lecture By Prof. Subhas Mukhopadhyay, Massey University, New Zealand

Very recently, on 16th November, 2010 WIE, along with the Sensor Hub, Kolkata organized a lecture program on “Sensing System for Health and Environmental Monitoring”. The lecture was held in the Alumni Seminar Hall at Bengal Engineering and Science University, Shibpur. Prof. Subhas Mukhopadhyay, Massey University, New Zealand was invited to give a talk on the aforementioned topic. His elaboration on the

topic sparked a lot of interest among the audience, of which most were PG students of the university. A total of 45 participants interacted closely with the professor towards better understanding of the subject and made the initiative a success.
