Essential skills for successful engineers

A seminar for young engineers

Speaker:
Dr Murray Milner FIPENZ MIEEE MIET

Murray Milner is one of New Zealand's most prominent engineers in the ICT industry. A former CTO of Telecom, Dr Milner now runs a busy consulting practice, advising government and enterprises on ICT strategy. He holds roles in the NZ IPv6 Task Force, Ultra-Fast Broadband initiative and National Health IT Board.

In this talk, Dr Milner will use practical examples from his own career to explain the key skills and attributes that engineers need to develop theirs.

Organised by the IEEE NZ Central Graduates of the Last Decade (GOLD) Affinity Group

Date:
Wed 24 Oct 2012

Time:
6:30 p.m.

Location:
GBLT1 Lecture Theatre
