

Yeongnam Chapter held Inaugural Mini Colloquia on May 14, 2008

IEEE EDS/MTT-S/SSCS Yeongnam Chapter (Chair, Prof Yoon-Ha Jeong, POSTECH) held its inaugural mini colloquia on “Nanotechnology and Nano Devices” on May 14, at EXCO Conference Center in Daegu, Korea. Five DL lecturers and invited speakers, Prof Takao Someya of the Tokyo University (EDS DL), Prof Moon-Ho Jo of POSTECH, Prof Huei Wang of National Taiwan University (MTT-S DL), Prof Juin Liou of University of Central Florida (EDS DL) and Prof Jong Ho Lee of Kyungpook National University (KNU), delivered inspiring excellent speeches.

Yeongnam Chapter chair, Prof Jeong, said, “IEEE Yeongnam Chapter is organized to bring researchers, professors, engineers and students from Gyeongbuk, Daegu and Gyeongnam areas, to gather for disclosing their research and development results, and sharing ideas and opinions” in his opening remarks.

Speakers covered topics on “Organic transistor ICs”, “Semiconductor Nanowires”, “Si & compound MMICs”, “ESD protection for nano CMOS” and “modeling of double gate and nanowire FETs”.

IEEE ED Society, Institute of Electronics Engineers of Korea (IEEK) and National Center for Nanomaterials Technology (NCNT), Pohang, KNU and POSTECH sponsored and supported this event.

About 100 audiences, professors and students, from Daegu and Pohang area attended the seminar.
