

Report on IEEE Networking Event 2018

The first networking event of IEEE Murdoch University Student Branch (MUSB) was held on 25th October, 2018 since its reopening back in this August. IEEE MUSB is a platform for the students of Murdoch University to develop their professional identity in the field of Engineering under the largest professional community of the world. More than 30 students from Electrical Engineering, Energy and IT background in undergrad, postgrad and PhD level, attended the event. The event was organized with two presentations and a socializing event afterwards. Student branch advisor, Dr. Farhad Shahnia welcomed everyone to the event followed by the first presentation from branch Chair, Mr. Md Asaduzzaman Shoeb, to introduce the students with the IEEE-the aims, visions and objectives of it towards the global community and the role that the student branch can play to achieve that. The second presentation was a technical talk given by Mr. Taskin Jamal, a graduating PhD student. The event was ended over a pizza and drinks party to get acquainted with each other where the attendees can share their thoughts, opinions and the benefit of joining the IEEE student branch.

Here are some of the key moments of the events-

Student Branch Chair, Mr. Md Asaduzzaman Shoeb is giving his presentation on IEEE and its structure.

Graduating PhD candidate Mr. Taskin Jamal is sharing the key points and research outcome of his research with the attendees.
