Magnetism In
Nanotechnology &
Electronics
Conference 2007**

IMAGINE

**Organized by the Northern Virginia/Washington DC Chapter of the IEEE
Magnetism Society**

**Title of Conference: IMAGINE 2007 – Ieee MAGnetism In Nanotechnology & Electronics
Conference**

Date: 25 June 2007 – 26 June 2007

Venue: Building 101, National Institute of Standards and Technology (NIST),
Gaithersburg, Maryland, MD 20899

Introduction:

The IEEE Magnetism Society Chapter of the Northern Virginia/Washington DC is organizing the IMAGINE Conference to provide an occasion for the magnetism researchers in this region and nearby to meet, interact, and exchange ideas. In addition, this is a good opportunity for postdoc/junior researchers and graduate students to present their research and gain exposure in the magnetism community.

Student to be our contributors

Just like the APS March meeting, a student will be guaranteed an opportunity to present an oral or poster presentation. For students who will graduate soon, remember to bring along your resume and have a chat with the research group that you are interested joining.

Postdoc/junior researchers to be Rising Stars

Postdoc/junior researchers who show potential in the field will be invited to make presentation as **Rising Star Lecturers**. They may also have opportunities as session chairs in the conference. Remember to submit your abstract to the conference for consideration as **Rising Star Lecturers**.

IEEE Magnetism Society Distinguished Lecturers

In addition, the 2007 IEEE Magnetism Society Distinguished Lecturers are invited to lecture during this event as the keynote speakers.

This event is **FREE** for IEEE members.
