

2012 IEEE Orlando Section Annual Election

November 14, 2012 - December 10, 2012

Instructions

Welcome to the 2012 IEEE Orlando Section Annual Election! The Election Committee wants to take this opportunity to personally express its sincere appreciation for you being an IEEE member!

Our duty and responsibility is to ensure that your voting rights are protected and that you are confident that your vote is accurately cast and tabulated. We will utilize the [vTools](#).Voting system for our elections.

Please select one candidate for each position or specify a write-in candidate.

Please don't hesitate to contact the Election Committee members at orlando@ieee.org if you have a question, comment, or complaint regarding your voting experience.

Thank you for voting - your vote counts!

Choose a candidate:

Michael Orlovsky

Michael Orlovsky

As a Senior Program Manager within the Applied Research Business area of Lockheed Martin, I am responsible for the identification, pursuit, and capture of Cooperative Research and Development opportunities. I have successfully led large, geographically distributed programs and developed capable teams. My demonstrated knowledge includes customer relations, proposal development (technical, cost, & schedule), subcontractor management, system conceptualization, analysis, requirements development, risk mitigation, and system implementation, with specific domain experience in intelligent automation architectures and command, control, communications, computers, information, surveillance, and reconnaissance systems. As a respected engineer and program manager, I have contributed to the aerospace industry in key roles for more than 27 years, including Program Development Engineer at General Electric; Systems Architecture Manager at Martin Marietta; Automation Project Engineer, Program Manager, and Senior PM at Lockheed Martin. My professional awards include a Department Management, Two President, and two "Team of the Year."

I have been IEEE Orlando Section Secretary for two years, Section Vice Chair for one year, and Section Chair for one year. I have also been the AESS Chapter Chair for five years.

I will leverage the IEEE Orlando Section strengths and apply my leadership skills to grow the technical relevance for the members, enhance the value of the section to the student members, and strengthen ties to the science, technology, engineering, and mathematics of our future engineering students and engineers. As section chair in 2012, we have successfully held our section picnic with a large turnout, sponsored the SouthEastCon 2012, added a new student chapter, and hosted our 2012 Awards Banquet. For 2012, I will challenge the section to increase the interest in our awards and scholarship program and also increase the number of significant technical presentations and symposiums.

One of my favorite quotations is "Your future hasn't been written yet. No one's has. Your future is whatever you make it. So make it a good one!" We have a strong Orlando Section that has well managed finances.

Vice-Chair

Stanley Buchanan

I am currently a Senior Life Member of the IEEE having previously held membership grades (over the last 50+ years) of Student Member, Member, and Senior Member. I am a retired engineer of the Lockheed Martin Corporation of Orlando, FL.

My Educational background includes a BSEE degree from Mississippi State University, and a Master's Degree from the University of Florida. I am also a licensed Professional Engineer in Florida and 2 other states.

On behalf of the Orlando Section, I have previously held on the EXCOM, the positions of Treasurer (2010), Secretary (2011), and currently hold the position of Vice Chair for the 2012 year. I will be honored to be considered a candidate for that position of Vice Chair for the Section again next year and, if so elected, will serve the requirements of that office to the best of my abilities.

This past year I also served as the Treasurer for the IEEE SouthEastCon conference held in Orlando. The final net accounting which has been accepted by the IEEE headquarters offices, shows that the original funds borrowed from the Orlando Section and Region 3 were completely repaid and the net profit was approximately \$29K. This conference has typically a money loser in past years.

Thank you for your consideration.

Best regards,

Stanley P. (Stan) Buchanan, P.E.

</p>

Secretary

Ravi Rajaravivarma

Currently I am a Professor at Valencia College at Orlando, FL. As a member of the IEEE for more than two decades, I volunteered to serve as IEEE METSAC Treasurer, IEEE Connecticut Section Treasurer and Vice-Chair before moving to Florida. I am serving as secretary for our IEEE Orlando section for the year 2012 and would like to continue to serve for the year 2013. IEEE played an important role in my professional life, especially during my student days and early part of my career. Because of IEEE I was able to attend and benefit from seminars, workshops, and conferences. I feel it is my turn to help IEEE by serving our section as Secretary.

Thanks a lot,

Ravi

Treasurer

Lynn G. Guthrie

I am a retired electrical engineer, KSTATE 1959, from Lockheed Martin Orlando. I have been a member of IEEE for over 50 years and for the past 2 years have been treasurer of the Orlando section. I'm am willing to serve 1 more year as treasurer and support as needed in other activites such as conferences, picnics, banquets etc.

I have enjoyed the past years with the Orlando section and look forward to it again.

Thanks very much

Lynn
