A MESSAGE FROM THE CHAIRMAN

Jerry Clark

Happy New Year from the Chair to the Piedmont Section. I hope everyone had a safe and enjoyable holiday.

It is time to take a look at 2008 and begin our planning for this year. The Executive Committee will be meeting soon to map out our plan. If you have suggestions for topics of interest to the membership please send us an email and we will place your idea on the schedule. I will post a tentative schedule to the website as soon as we get our meetings organized.

We will begin this year with the Student Paper Competition at Clemson. Please make plans to attend. We always like to have a good turnout for this event and appreciate your assistance as judges.

I would like to add a word of thanks to our Executive Committee and a few active and dedicated members. I would particularly like to thank Mark Stokes, Rob Scruggs, Louis Hapeshis, and Owen Parks. They have been tremendous help this past year, and have had the added burden of pointing me in the right direction and letting me know what and when I needed to do something. I know that Rob and Mark have held Excom

positions in the past and have probably forgotten more than I know about the position. Without their input and guidance our Section would probably be best characterized as chaotic and unorganized and largely inactive.

Thanks to our members who also come and support our activities with Clemson and support the section by attending our monthly meetings. Practically all of our meeting topics come from the membership and I once again ask for your support this year. Let us know if you have a topic that you would like to see a presentation on, or feel free to present a topic that you have a particular interest or experience in.

See you at the meetings!

NEXT MEETING

Student Paper

Competition

Louis Hapeshis

Thursday, February 7, 2008

@6:30pm

As usual, we're starting off our New Year with our annual Student Paper Competition. Each year our section sponsors a competition between the students in our section. Usually, the students come from Clemson; however, this is not part of the rules. It can be any student member of the Piedmont Section of the IEEE in an EE type of undergraduate program (i.e. Computer Engineering is ok also). We devote one of our meetings to this competition where the students are to present their paper to the people present.

Energy

GE HIRING EVENT
GOING ON NOW!

Thomas Weber

Due to unprecedented growth, GE Energy in Greenville is having this extraordinary event at the end of January '08!

If you have a Bachelor's Degree in Engineering, with at least two years of experience and live within an hour of Greenville, we want to hear from you.

Want to learn more? Simply send an email to Thomas Weber at Thomas2.weber@ge.com for consideration, or you can go to the following:
