about Alcatel-Lucent...

The screenshot shows the Alcatel-Lucent USA website homepage. At the top, there is a navigation bar with the Alcatel-Lucent logo, a search bar, and links for Home, Contact Us, Sign In/Register (MyAccess), and Worldwide [Change]. Below this is a secondary navigation menu with tabs for Solutions, Products, Services, Innovation, Support, and About Us. The main content area features a large banner for the "International CTIA Wireless 2010" event, with the text "Come see Alcatel-Lucent at International CTIA Wireless 2010 Booth #2506". The banner includes a video player showing a hand holding a mobile phone with a glowing red and purple energy wave. Below the banner, there are sections for "Find Solutions by Your Business Need" and "Find Solutions by Segment". The "Find Solutions by Your Business Need" section lists: Generate additional revenues & create new business models, Transform cost structure, Expand network capacity, Manage business change, and Be Green, eco-sustainability. The "Find Solutions by Segment" section lists: Service Providers, Cable Operators, and Enterprise. To the right of these sections is a "Quick Links" area with a "WHAT IS APPLICATION ENABLEMENT?" banner and a "LEARN MORE" button. The footer contains copyright information: "Copyright © 2006-2010 Alcatel-Lucent. All rights reserved. | Terms of Use | Privacy | Site Map | RSS".

about my team...

.. and the way we use emerging communication technologies

dogfooding project

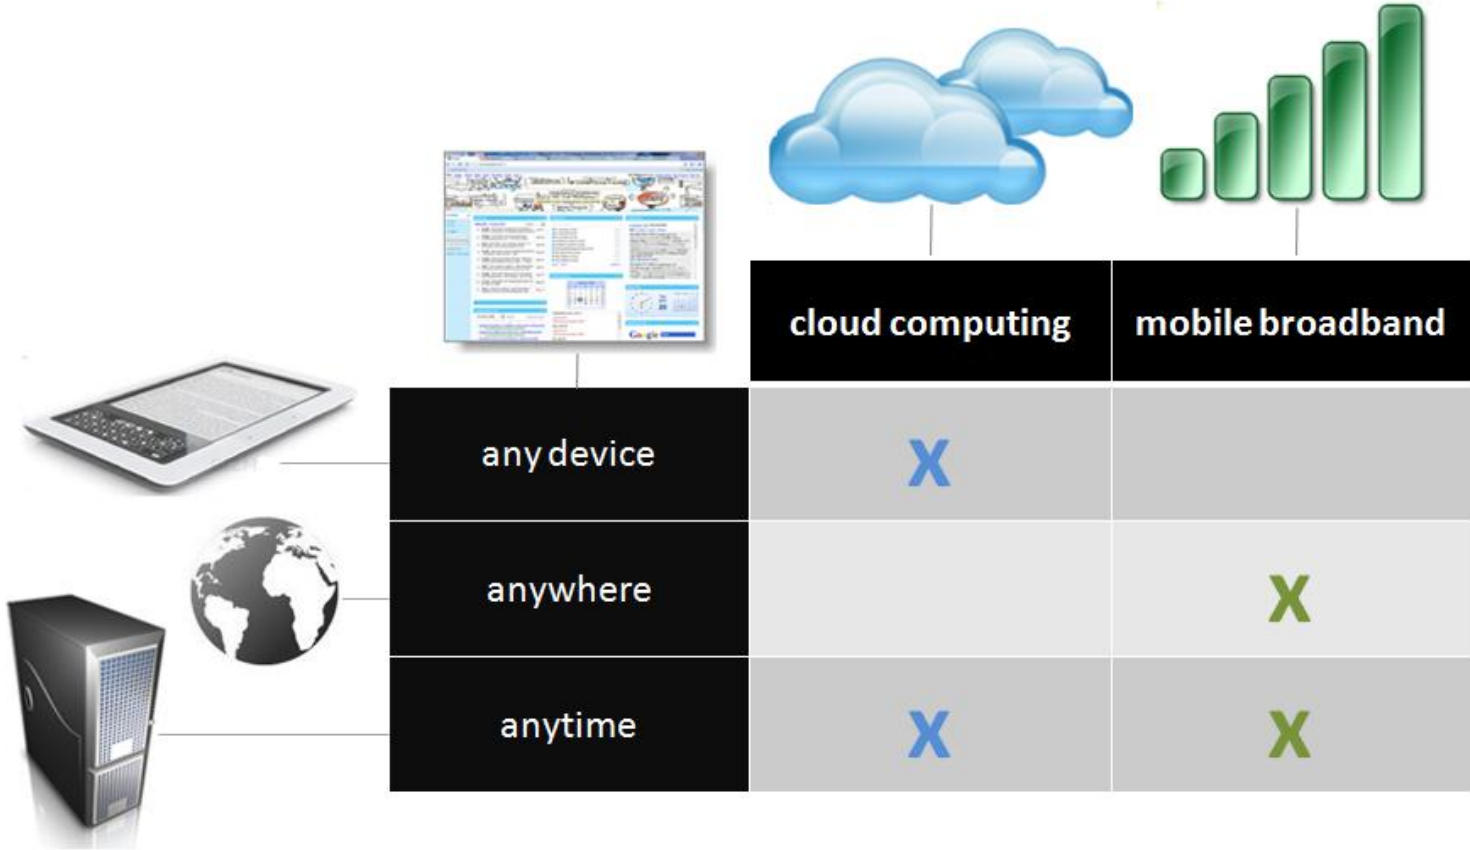

- nimble, diverse multi-disciplinary team
 - mobile broadband
 - small cell
 - application enablement
 - multimedia
- emerging trends scouting
- ideation and concept research
- dogfooding
- proof of concept and demonstrations support

about being mobile

redefining mobility...

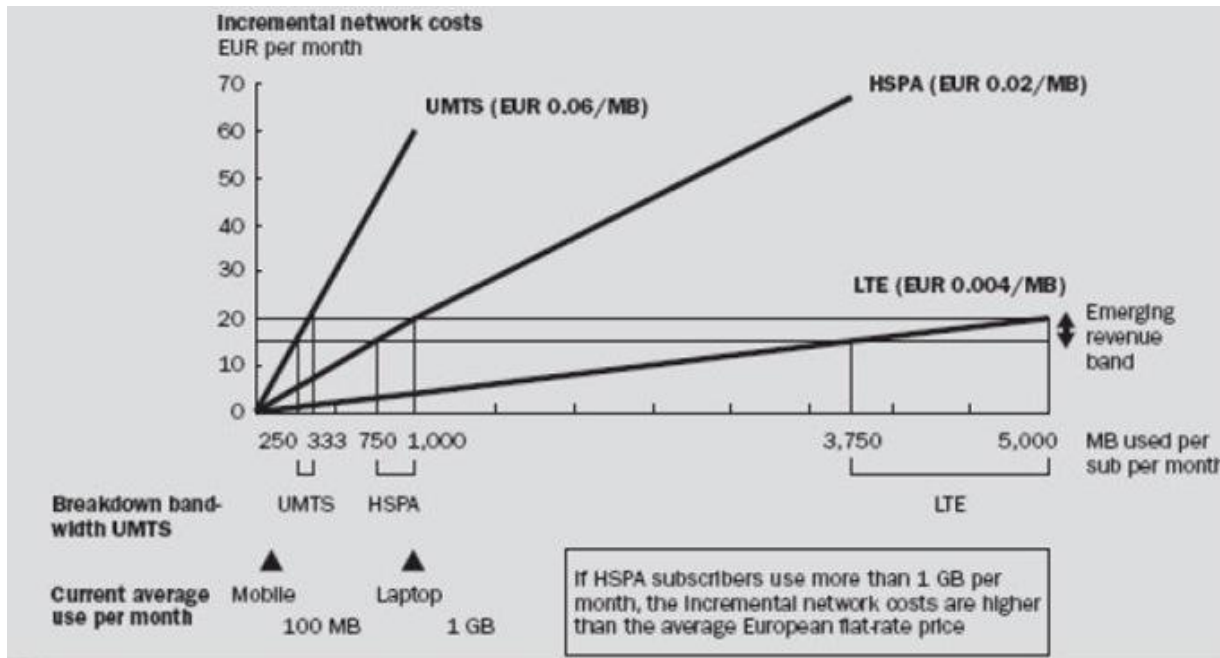

ubiquitous access to net computing

- higher server utilization
- shared resources (multi-tenancy)
- pay as you use billing model
- **lower cost, moving capex to opex**

- sub \$400 lightweight computing devices
- economies of scale
- longer lifecycle, higher security
- **lower equipment and maintenance cost**

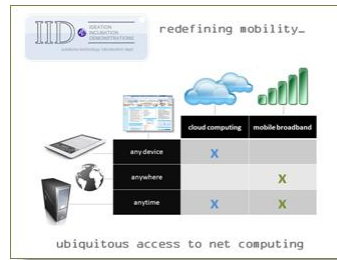

- end to end IP
- flatter architecture
- asset reuse
- spectrum efficiency
- self optimization

lower cost per bit

chart source: McKinsey

lte: lower cost

- the mobile experience
- redefining mobility in the XXI century
 - mobile broadband:
 - ubiquitous
 - responsive
 - cloud computing:
 - elastic
 - technical / business model scalability
- the ecosystem: devices, apps, networks, services... biz models
- democratizing mobile broadband in an era of open innovation

The Next Generation
Here's what consumers are demanding—and will be demanding in the next five years. What are the barriers to success, and how do we remove them?

The Ecosystem
The ng Connect Program ecosystem covers everything from primary research to collaborative sales and marketing.

The Members
Our members span a wide range of industries and markets, with the common goal of working together to deliver the services of tomorrow.

News and Documents
Keep informed about the ng Connect Program.

Differentiate through open innovation

Discover the power of transformation

Enabling a Trusted Web Experience

Application enablement is an industry vision and network approach that combines the trusted capabilities of network operators and the speed and innovation of the web to provide end users and enterprises what they demand: a richer and more trusted web experience and beyond.

Application Exposure Suite

Turn network assets into revenue. 

- next generation of high bandwidth services
- ecosystem development
- true XXI century mobility with LTE
- trusted resources and capabilities of network operators
- open api service
- mashups leveraging smart pipes and high bandwidth
- context and device awareness
- rapid application development and service rollout

- 1 Engaging media-rich hosted application
- 2 Highly targeted and dynamic advertising

- 3 Fast and interactive behavior thanks to improved network delivery and performance

- Always-on and On demand
- Ease of content discovery
- Location relevant
- Immediacy and interactivity
- Personalized
- Contextual notifications and relevant advertising

Contextual and dynamic ad insertion
