

Milwaukee IEEE Industrial Application Society and Computer Society Joint Seminar Announcement

The State of the Art of Ethernet in Industrial Applications

**On May 4th, 6:30 PM at PCC
N114W18770 Clinton Drive
Germantown, WI 53002**

Ethernet is everywhere. We all depend on it. It's in our homes, our offices, and more and more in our factories, chemical plants and refineries. More and more manufactures are using Ethernet to carrying sensor signals, control signals, alarms, and information. The Industrial Applications Society and the local chapter of the Computer Society are proud to present Jeremy Bryant of Siemens Corp, a nationally known expert on the application of Ethernet in the industrial environment, in a presentation of the basics of applying Ethernet in the rough and tumble world of Industry.

Mr. Bryant is in town to present a series of seminars for paying attendees. Through the courtesy of Siemens and Professional Control Corp. (PCC) the IEEE has arranged for Mr. Bryant to put on a special presentation evening presentation for NO COST.

This evening presentation is not a substitute for the full seminar being put on by PCC and Siemens during the day but it's a free opportunity to pick up on many of the basics of the ever growing world of Ethernet applications in industrial environment. Bring your questions on the basics of Ethernet and how you can use it.

With the facilities courtesy of PCC there will demonstrations of Ethernet applications and chances for attendees to try out some applications for themselves.

Refreshments will be provided.

Attention Marquette, MSOE and UWM students. If you need a ride since you have no other way of getting there contact Brian Cunningham below. He is outing together a ride of students.

This is another opportunity to BE A WINNER. We will again collect business cards at the meeting. At the end of the year the IEEE will have a drawing for a DVD player or mall gift certificates. The more events you attend the more chance you have of winning. If you don't have a business card we will have blank cards for you to fill out. One card per person per event.

This is a great opportunity, don't miss it.

For directions check out the PCC Website at <http://www.pccweb.com/Welcome/Contact.aspx> and click on the Contact and maps section.

No registration is required. If you have any questions contact Brian Cunningham at <mailto:brian.cunningham@siemens.com> or Ram Bhatia of Benco at ramb@benco-us.com .
