# Showing Up

by Kimball Williams

A few months ago I was attending

a lecture on training new employees for general employment and was and that someone else must do startled when the first topic on the that instead. list was showing up for work, on time and ready to go. For anyone educated in the USA school system, where regular attendance is the The progress that might have been norm, the thought that someone accomplished will crash and burn! new to a job had to be reminded of this simple fact was a revelation.

Of course we need to be there. If Everyone we are not, everything after is not working going to happen. At least it is not the success of doing to happen to me, and if I keep IEEE and of our that up, I won't be asked to come Section. back. In fact, I may be forcefully asked NOT to come back!

organization Anv cannot run effectively if some of the people who said they 'wanted to do the work' consistently fail to show up. It is no different with а organization like the IEEE. lf someone volunteers to perform some function, or lead some activity and they do not show up, the function or activity is in jeopardy.

Universities don't hire professors to cover some who easy for people to attend. No one decide that 'This is a nice day, so I'll has to drive to the meeting. No just wander in the park today'. gas is used. No wear on the tires. Industries don't workers to do the same assembly at the teleconferences can be by line job assuming that one or more either by the responsible officer is not going to show up for work. (Say, a Chapter Chair) or any of The IEEE doesn't elect multiple their co-officers (Such as the Viceofficers, or appoint multiple directors Chair, Secretary or Treasurer). in the assumption that one or more We also ask that each operating will just decide that 'today I don't element;

have time for that'. There are no Director, Chapter or affiliate group and carry on when someone status update, so we know:

decides that their promise to be present and help out is non-binding

No-none else will do it. The project will fail. The activity will stall.

IEEE Southeastern Michigan Section ExCom Teleconferences

is toward Your active and consistent participation is and needed necessary to the accomplishment

of our goals. We need you to do volunteer your part. That can only happen when you 'show up'.

Each month, on the 1<sup>st</sup> Thursday of the month at Noon the Section holds its monthly administrative teleconference. We made this a extra teleconference so that it would be hire multiple Only time is required. Attendance Section Officer or

extra hands to pick up the work send in a monthly written (e-mail)

- Everything is OK, and •
- You planning are and working toward success of your element, and
- If you need help or funding for special projects, we have a 'heads up'.
- Anything that might be drifting 'off into the weeds' be caught can and addressed.

The reports don't have to be long

epistles, and many Chapters structure their reports so that the same basic report, with minor 'tweaks' each month serves to keep us all up to speed on their

operation.

"Your active and

consistent participation

is needed and

necessary to

accomplish our goals."

Our Section Secretary, Lora Schulwitz, compiles all the reports together and publishes them before each teleconference so that all Section elements have a chance to catch up with everything that is going on in the Section before the teleconference begins. As a result, when we hold the teleconference, we don't have to "read" our reports into the record...they are already there. We also then have sufficient time to discuss any problems or concerns that need detailed explanation and or discussion and debate. If a vote is needed, we can do it then, and approve an action (such as a funding request) that same day.

Advertise in Wavelengths Newsletter! Our readers specify and purchase a wide range of electronic components, equipment, and services. Our sponsor are from industry, education, and nonprofit organizations. Full page \$500, Half page \$250 Quarter page \$125, Eighth page \$65.

All in all, the system is working quite well for those who show up. There lies the problem. Some elements do not show up. (By that I mean that a few Chapters (continued on page 4)

## The Secretary's Pavane

- by Kimball Wiliams

dance troop. The cycle of meeting In cases where circumstances force in Table 1 illustrates this.

Of course, as

anv

with

ners in

dance

he Secretary in a professional or-

ganization such as an IEEE Chapter. Section or Society acts as the 'spark pluq' for the

Definition: Pavane (pə-'vän): A measured, stately dance in
which all steps are known to all the participants.

'engine' that we think of as the Executive Committee (ExCom). Bv maintaining an awareness of critical event timing & functions and ensuring that the necessary 'spark' is sent the draft agenda sent for comment. to the relevant officers to initiate preparation and follow up action as needed, the Secretary keeps the organization entire functioning smoothly. In its final form, a well functioning organization responding to the Secretary's prompting behaves like a well choreographed

proper sequence and at the proper time. As above, for example, the Secretary is dependent on the response from the Chair to If nothing comes back, the rhythm is broken, and the dance falters. In any volunteer organization, time commitments are at the discretion of the volunteer, and it may not always A similar, though shorter dance ocbe possible to respond fully, immediately, when the initiative is handed off.

activity for a typical Chapter shown a change in the 'steps', it becomes critical to communicate this to the dance partner. A quick e-mail or phone message that confirms;

> dance, all part- . I received your document (mesthe sage/ request/ missive) and,

> must . Should be able to reply by (date respond in the & time as appropriate) is vital.

> > The first part lets the partner know that the first message successfully got through. This puts them at ease. At least they won't be wondering if it got lost in cyberspace. The second part allows them to alter their normal 'dance' pattern to adjust to changing circumstances.

> > curs between the Chapter Secretary and the Section Secretary as they near the time for the monthly Section ExCom meeting (see Table 2).

Also, the rapid turn around of the meeting minutes to the Chapter Secretaries is vital to ensure that actions at the Section level are communicated back to the Chapters as rapidly as possible. This is especially critical when there is a sudden change in a well publicized Section event, or some vital change in operating methods or policy takes place.

Finally a response from the Chapter Secretary to the Section Secretary that they received the copy of the last minutes helps the Section Secretary relax and know that their final twirl in the 'dance' was successfully completed.

Occasionally, some parts of the dance are performed almost 'Solo'. Preparation for a normal monthly membership meeting is a typical example (see Table 3 on page 6).

As you can see, planning ahead is one of the elements that ensure

(continued on page 6)

#### Table 1: Chapter / Section Administrative Teleconferences / Meetings

Meeting date – 14 days	Send draft agenda to Chair for comment and revision
Meeting date – 12 days	Send revised agenda & last minutes to Chapter Officers
Meeting date – 10 days	Send calendar notice of meeting to Chapter Officers
Meeting date – 7 days	Send e-mail meeting notice to Chapter Officers
Meeting date – 2 days	Send e-mail reminder of meeting to Chapter Officers
Meeting date	Transcribe minutes of the meeting Record attendance at meeting
Meeting date + 1 day	Send draft minutes to Chair for review and comment
Meeting date + 2 day	File vTools: L-31 form for IEEE HQ
Meeting date + 5 days	Send revised draft minutes to Chapter Officers
Meeting date + 7 days	Update next agenda based on revised draft minutes
Meeting date + 10 days	Setup vTools calendar meeting page for next meeting

#### Table 2: ExCom Meetings for Chapter and Section Secretaries

Meeting date – 10 days	Compose Chapter Report for the Section ExCom
Meeting date – 9 days	Send Chapter Report to the Chapter Chair for Review
Meeting date – 5 days	Send revised Chapter Report to Section Secretary
Meeting date	Ensure Chapter is represented at ExCom Meeting
Meeting date + 5 days	Distribute draft ExCom minutes to Chapter Officers

## The Secretary's Pavane (continued)

#### (continued from page 5)

that the dance is well performed, and that no one missed a step.

#### **Chapter Calendar**

One of the most powerful tools in The chapter web site falls into the the secretary's kit is the long range planning calendar. This calendar Secretary's area of responsibility. If needs to look at least 1 year ahead you do not possess the skills to Of course, all this activity requires a of the current date at all times. The actively manipulate the Chapter web good tool box, well stocked with the Secretary should be planning activit- site, send your update requests ies for the Chapter along with the through other relevant Officers at least 1 director for action (see Table 4). year ahead of the current date.

There are a number of advantages to taking this long range view:

Regular meeting dates can be planned well in advance, and venues, menus, support functions (A/V, Computer, Projector, Microphones, etc.) can be anticipated and scheduled.

• By establishing regular meeting days, times and locations, members (and Officers) become used to the routine, and begin to bend their other schedules around the planned meetings.

Different types of meeting may be noted (administrative, presentation, tours of plants, workshops, classes, PAC's, etc.)

The schedule can be interleaved with other related events of note: Section and Society Conferences, Section ExCom meetings, Society Symposia, Sister Chapter events of interest to your membership, etc.

#### Section vTools Calendar

The Section / Chapter vTools Calendar becomes an extension of the Chapter's long range planning calendar, and is one of the communications tools needed to keep members updated on Chapter activity planning. Conversely, the "Register for Meeting" feature of the

vTools calendar provides feed back Chapter On-Line Community from Chapter members as to how many are planning to attend a particular meeting (see Table 3).

Section

**Chapter Web Site** 

the

The chapter On-Line Community, if one exists, also falls into the Secretary's area of responsibility. Ideally, the Secretary should also be one of the administrators for the On-Line Community (see Table 5).

(continued on page 7)

#### Table 3: Section vTools Calendar

Website

Meeting date – 45 days	Setup vTools calendar meeting page
Meeting date – 30 days	Send e-mail notice to members (include vTools link)
Meeting date – 1 day	Ck # registered & advise on refreshments
Meeting date + 2 day	Fill in vTools L-31 form to register meeting

#### Table 4: Chapter Web Site

#### **Measurements**

Measurements for the PACE activity have proved to be one of the most difficult parts of establishing a viable

program. A few, (very few), elements have readpresentable ily measurements that can be applied to determine effectiveness. Most have eluded my efforts, and I would love to have a heart to

heart talk with someone who has ideas on how to get a handle on this part of the problem.

All of these worthy efforts need volunteer assistance to help make a difference here in Southeastern Michigan. If you have time, and are interested in following up on any of these activities, please contact the SEM Director of PACE activities:

This short course covers all key topics in hybrid vehicles including modeling and control, batteries, battery management systems, motors and power electronics, and EMC.

#### \$2,495\* COVERS THE ENTIRE FIVE-DAY PROGRAM ONE-DAY MODULE: \$600 | HALF-DAY MODULE: \$350

Fee includes tuition, instructional materials, continental breakfast, lunch and breaks each day. Fee is payable in advance.\* Upon registration, you will receive an email confirmation including directions to the program site and recommended lodging.

Scan to visit the Hybrid and Electric Vehicle website.

#### PROGRAM DATES

Ann Arbor, Michigan

ENTIRE FIVE-DAY SHORT COURSE

October 3-7 All six modules included

#### **INDIVIDUAL MODULES**

III DI UID OF IL	mobolino
October 3	Model-Based Approach for Hybrid Vehicle Design and Analysis
October 4	Battery Fundamentals
October 5	Battery Management Systems for Electric Drive Vehicles
October 5–6	Power Electronics for Electric Drive Vehicles
October 6	Military and Non-Automotive Applications, Diagnosis, Prognosis, Reliability, and NVH of HEVs
October 7	EMC of Hybrid and Electric Vehicles

# **Examining Practical Solutions For Driving Down The Cost** & Improving The Performance **Of EV Batteries**

TRANSLATING TECHNICAL SOLUTIONS INTO COMMERCIAL OPPORTUNITIES FOR REDUCING THE COST OF ELECTRIC VEHICLE AND PLUG-IN HYBRID ELECTRIC VEHICLE BATTERIES

- BATTERY SYSTEM COST REDUCTION Understanding how lessons learnt from batteries in current generation EVs can be applied to driving down the cost of the battery in the short term
- ENERGY DENSITY OPTIMIZIATION Determining how near-term advances in improving energy density could help drive EV battery cost reduction
- **COST-EFFECTIVELY IMPROVING BATTERY LIFE** . Examining current generation advances in costeffectively improving EV battery life & solutions for preventing cell degradation & failure

Takehito

Yokoo

Tovota

nager Oj

COST-EFFECTIVELY IMPROVING BATTERY SAFETY Evaluating advances in cost-effectively improving battery safety & applying new battery safety methodologies

## Learn how to comply with the many EMC regulatory requirements

#### EMC by Your Design An EMC Practical Applications Seminar and Workshop

Now offered in 3-day format Tues. Oct. 18 – Thurs. Oct. 20, 2011 Hilton Hotel, Northbrook, IL

#### 847-537-6400 www.dlsemc.com/1001

Newly updated curriculum developed by Donald L. Sweeney and his associates include an understanding of the many EMC regulatory requirements including FCC, CE, US Military, RTCA-DO-160 and those of many foreign countries. Classes start with the fundamentals of electromagnetic compatibility and then focus on the methodology of how to minimize EMC problems, starting with the design process through final testing and approval, all of which are brought to life through hands-on practical application to real life products.

Students will learn how an electronic circuit becomes a radio transmitter, how the physics of even the simplest devices such as capacitors, inductors and shielding can help or hinder compliance and how to control the design to minimize emissions. They will be lead step-by-step through sample calculations, be introduced to take-home proprietary software and led through trouble shooting a product that does not meet the requirements. Additionally, attendees will be offered an exclusive, hands-on personal consultation with the instructor or technical staff to apply what has been learned to their specific product.

### Have You Had an Ethical Dilemma? Call for Participants for UofM-Flint Research Survey

Prof. Michael Farmer

Ethics is a difficult topic to explore. Two faculty members at the and what one should do in various begun situations. situations in which we How well are you versed in the development we'd like you to ethical policy of your organization? participate in this study by following

In Memoriam **Two Section Officers Pass Away in April** 

Angela C. Sodan, Ph.D. 1955 - 2011

Angela passed away April 21st, 2011 after a Paul passed away suddenly on April 9, 2011. Paul courageous battle with cancer. Angela served as the IEEE SEM Director of Technical Activities and as the Chair of the IEEE SEM Women in Engineering Affinity Group. Angela came here 10 years ago from Berlin, Germany where she is survived by her mother Christel, her brother Dr. Halge Sodan, his wife Korneilia & their daughter Beatrice Sodan to whom she was Godmother. Angela had a PhD in Computer Science & was a professor at the University of Windsor. She was involved in numerous research projects. Most recently, her article on multiprocessing appeared as the cover article in the IEEE Computer March 2010 issue.

Paul Ostrowski, C.C.E., Ph.D. 1954 - 2011

recently served as Chapter Chair of the IEEE Engineering in Management and Biology Society SEM Chapter. In years past, Paul served in many SEM Section Offices. Paul graduated from Cornell University with a degree in Biomedical Engineering, and completed his post-graduate education at the University of Michigan. He served for 16 years as the Chief of Biomedical Engineering at the John D. Dingell VA Medical Center in Detroit, Michigan and for the Veteran's Integrated Service Network. He served on the national Veterans Administration Medical Devices Expert Panel. His professional interests focus on medical equipment technology management and development, especially in patient safety, systems design, telemedicine, imaging and neurology.

## Science Fair Awards from IEEE

- by Don Bramlett, P.E.

he The 54th Annual Science and William Quinlan Engineering Fair of Metropolitan Detroit (SEFMD) was held from March 15 through March 19, 2011 in the Detroit Hall of the Cobo Conference Exhibition Center in downtown Detroit. Judging of student projects was performed on Wednesday, March 16. This year the SEFMD had over 131 schools participate from Wayne, Oakland Macomb counties with and approximatelv 1,378 students having projects on display in two Divisions, the Junior Division (6<sup>th</sup> thru 8<sup>th</sup> grade students) and the Senior Division (9<sup>th</sup> thru 12<sup>th</sup> grade students). Exhibits were classified into 13 general categories for judging; including engineering, computer science, physics, and environmental science.

For the seventeenth straight year the IEEE Southeastern Michigan (IEEE-SEM) Section has provided a team of volunteer judges to evaluate student projects associated with IEEE fields of interest. The Section expresses its appreciation to the IEEE-SEM Section members who volunteered to be IEEE judges or serve in other roles this year.

The Section wishes to thank the seven (7) IEEE members, and their companies/institutions, for taking the time to volunteer and help to make the Science Fair a more pleasurable and meaningful experience for the Senior Division middle school and high school students who participated.

The IEEE-SEM judging team was Recognition composed of the following five (5) Score." volunteers:

Don C. Bramlett, PE, SMIEEE, FESD, FMSPE Detroit Edison (DTE Energy)

Laurence G. Dishman, Ph.D.

Wavne State University

American Axle and Manufacturing

Sat Basu Detroit Edison (DTE Energy retired)

Amar Basu, Ph.D. Wayne State University

SEFMD, such as Paul Ostrowski, "Check the Charge." Ph.D. CCE. SMIEEE (General Category Judge Coordinator) and Vivian Obia, in the 8<sup>th</sup> Grade at Ivan Dave Morris, Ph.D. Category Judge) Mitre

The judges had the opportunity to Flow Rate of Diamagnetic Liquids." view and evaluate a number of exhibits, especially some interesting Kate Morris in the 8th Grade at Our projects in areas pertinent to IEEE Lady of Good Counsel Elementary fields of interest. The judges and School in Plymouth for her project the high school students in the entitled "Does Temperature Effect Senior Division had the pleasure to the Strength of an Electromagnetic." interface and discuss in depth some principles, of the techniques, engineering approach, Novi Middle School in Novi for his experimental results applications pertinent to projects.

The IEEE-SEM Section, based on Detroit Country Day Middle School the evaluations of the panel of in Beverly Hills for his project judges, awarded two (2) First Place entitled "Which Windmill is More Grand Awards, consisting of a Efficient." personalized certificate and a cash award for each awardee. awards were presented to:

Hyunjoon Song, a sophomore at Novi Senior High School in Novi for his project entitled "Optical Music of Printed Music

Samantha Myers, a sophomore at These are just a couple of the pre-Divine Child High School Dearborn for her project entitled the IEEE-SEM Section promotes. • "Solar Panel Efficiency: A More Colorful Future."

The panel of judges also determined that the IEEE-SEM Section would provide five (5) Honorable Mention Awards to other noteworthy projects in the Junior Division. Each Honorable Mention Award consisted of a personalized certificate for each awardee. These awards were presented to:

**Timothy Clish**, in the 7<sup>th</sup> Grade at Other IEEE/SEM Section members St. Michael Elementary School in served in other capacities at the Livonia for his project entitled

## Chapter IV Activities -- New Society Add!

**Chair Tayfun Ozdemir** 

grow and becomes a joint chapter of four societies including ED, MTT, AP, and PHO. PHO, the Photonics society, officially joined the chapter in March, 2011. Meanwhile, our team expanded to eight officers for more detailed duties. The officers' meetings were held twice for the first half of this year for team coordinating.

As a joint chapter, we invited professionals with wide technical background as speakers for seminars. In March, we hosted Dr. Ronan Sauleau from the Antenna & Microwave Department, Institute of **Electronics and Telecommunications** 

Rennes, France. His talk was about Lemnios, director, DR&E, DoD, has the 'Antenna Research at IETR'. As been confirmed as the keynote  ${f T}$ his vear, Chapter IV continues to a speaker for the 2011 IEEE SEM speaker spring conference, our chapter Additional details regarding the hosted Dr. Tal Carmon of EECS symposium will be announced soon, department, University of Michigan, and we expect larger attendance who presented a talk on 'Harnessing than the first symposium held in Radiation Pressure'. Most recently, 2010. we hosted Dr. Sajeev John from department of physics, University of Xueyang Toronto, Canada. He gave a lecture <xduan@umich.edu> is the Chapter on 'Photonic Band Gap Materials: Secretary and a Graduate Research Light Trapping Crystal'. seminar was attended by over 90 Dr. professionals and students. Soon in <tayfunozdemir@ieee.org> is the September, we will be hosting Dr. Chapter Chair and President of Herbert S. Bennett from Physical Virtual EM Inc. Measurement Laboratory, NIST, as our speaker.
