

THE INSTITUTE OF
ELECTRICAL AND
ELECTRONICS
ENGINEERS, INC.

SECTION CORRESPONDENCE

Nov. Meeting Notice : Wed. Nov. 19, 1969
Place : Waters Corp.
2411 NW 7th St., Rochester, Minn
Time : 7:30PM
Program : Mr. George Sedivy will host our meeting with
a discussion of the research and clinical
"Biomedical Instrumentation" of Waters Corp.
followed by a plant tour and refreshments.
Comments : Our officer slate for 1970 is as follows-
Chm.-Paul Babel, IBM
V.Chm.-Del Hollenbach, IBM
Treas.-Martin Storma, MAYO CLINIC
Sec.-Ron Keller, IBM

The Waters Corp. is in their new building located east of the United Building Center on 7th. St. NW. Waters Corp. is one of the original manufacturers of medical instruments. One of their recent triumphs was the "Membrane Oxygenator" used to keep organs alive for transplant purposes. Sound interesting? You bet. See you there.

Support your local IEEE effort. Come to one of our technology tours and find out what some of the members of this section do. If you have a program of your own, please contact our V.Chm. Wayne Casanova, 3106 Knoll Lane, Rochester, Minn 55901 or one of the new officers.

Mark Jan. 21 on your calendar for the Husbands-Wives/Sweethearts dinner. We are planning on having an NS representative talk on the Atomic Reactor Power Plant Pollution Controversy.
