OC and LA Area Consultants’ Network Members and Friends,

The early registration period for our SBIR Workshop has been extended until May 15, 03. This is the high quality Workshop our local IEEE members have been asking for. We believe this instructor is the best available in the US, in terms of "How to Put You on the Winning Track".

Our nicest announcement is given in the attachment. The bare-bones details are given below. If the either of them is unreadable, or the hyperlinks don’t work on your browser, see the extended announcement and registration procedure at www.occn.org, or http://occn.org/sbirsa.htm. Many of the links lead to useful SBIR information.

Ron Oglevie
Program Organizer for OCCN
