

Consumer Business Unit Overview

Tim Lee
Program Manager
April 22, 2014

Topics

- Introduction
- Overview of Consumer Business Unit
- EMC, Wireless, and Interoperability – A Virtual Tour
- Q&A

Services & Industry Sectors Summary

Services

- Ⓛ Chemical Testing
- Ⓛ **EMC**
- Ⓛ Energy Efficiency
- Ⓛ Global Market Access
- Ⓛ Performance Testing
- Ⓛ Product Inspection & Factory Audits
- Ⓛ Regulatory
- Ⓛ Reliability
- Ⓛ Safety Testing & Certification
- Ⓛ **Business & Interoperability**

Industry Sectors

- Ⓛ Automotive
- Ⓛ Batteries
- Ⓛ Consumer Electronics
- Ⓛ Electricity Meters
- Ⓛ Hi-Tech Components
- Ⓛ IT Equipment
- Ⓛ PCB's
- Ⓛ Power Supplies
- Ⓛ Telecommunications

EMC

Testing Programs Include:

- 👍 Conducted & Radiated Emissions
- 👍 Conducted & Radiated Susceptibility
- 👍 Immunity to Electrostatic Discharge
- 👍 Immunity to Electrical Fast Transients
- 👍 Immunity to Surges
- 👍 Interference from AC Mains Harmonics & Flicker
- 👍 Vehicular Emissions and Immunity
- 👍 Energy Meter Performance Testing

Wireless Testing & Interoperability (Slide 1 of 2)

Regulatory Testing Programs Include:

- 👍 Cellular Devices
- 👍 Land and Maritime Mobile Radio
- 👍 Short Range Devices
- 👍 Wireless Digital Networks (e.g. WiFi, Bluetooth®)
- 👍 Specific Absorption Rate (SAR)
- 👍 Over-The-Air (OTA)
- 👍 Digital Microwave Systems
- 👍 Telemetry & Telecommand

Wireless Testing & Interoperability (Slide 2 of 2)

Interoperability Testing Programs Include:

-  WiFi Alliance
-  Bluetooth®
-  Global Certification Forum (cellular devices)
-  PTCRB (cellular devices)
-  Carrier Acceptance Testing (cellular devices)
-  Qualcomm QuickCharge 2.0
-  Near Field Communication (NFC)

Sectors and Products coverage:

Consumer Electronics

Smart Grid

Appliances

IT Products

Payments & Banking

Wireless and Telecom

Automotive

Industrial Products

Health and Medical

All Technologies Covered

Wireless LAN

Immobilizers & Keyless entry systems

Cellular – GSM / WCDMA / 3G / LTE

Microwave

Short Range Devices

WiFi/ WiGig

Bluetooth

WirelessHD and Wireless USB

ZigBee

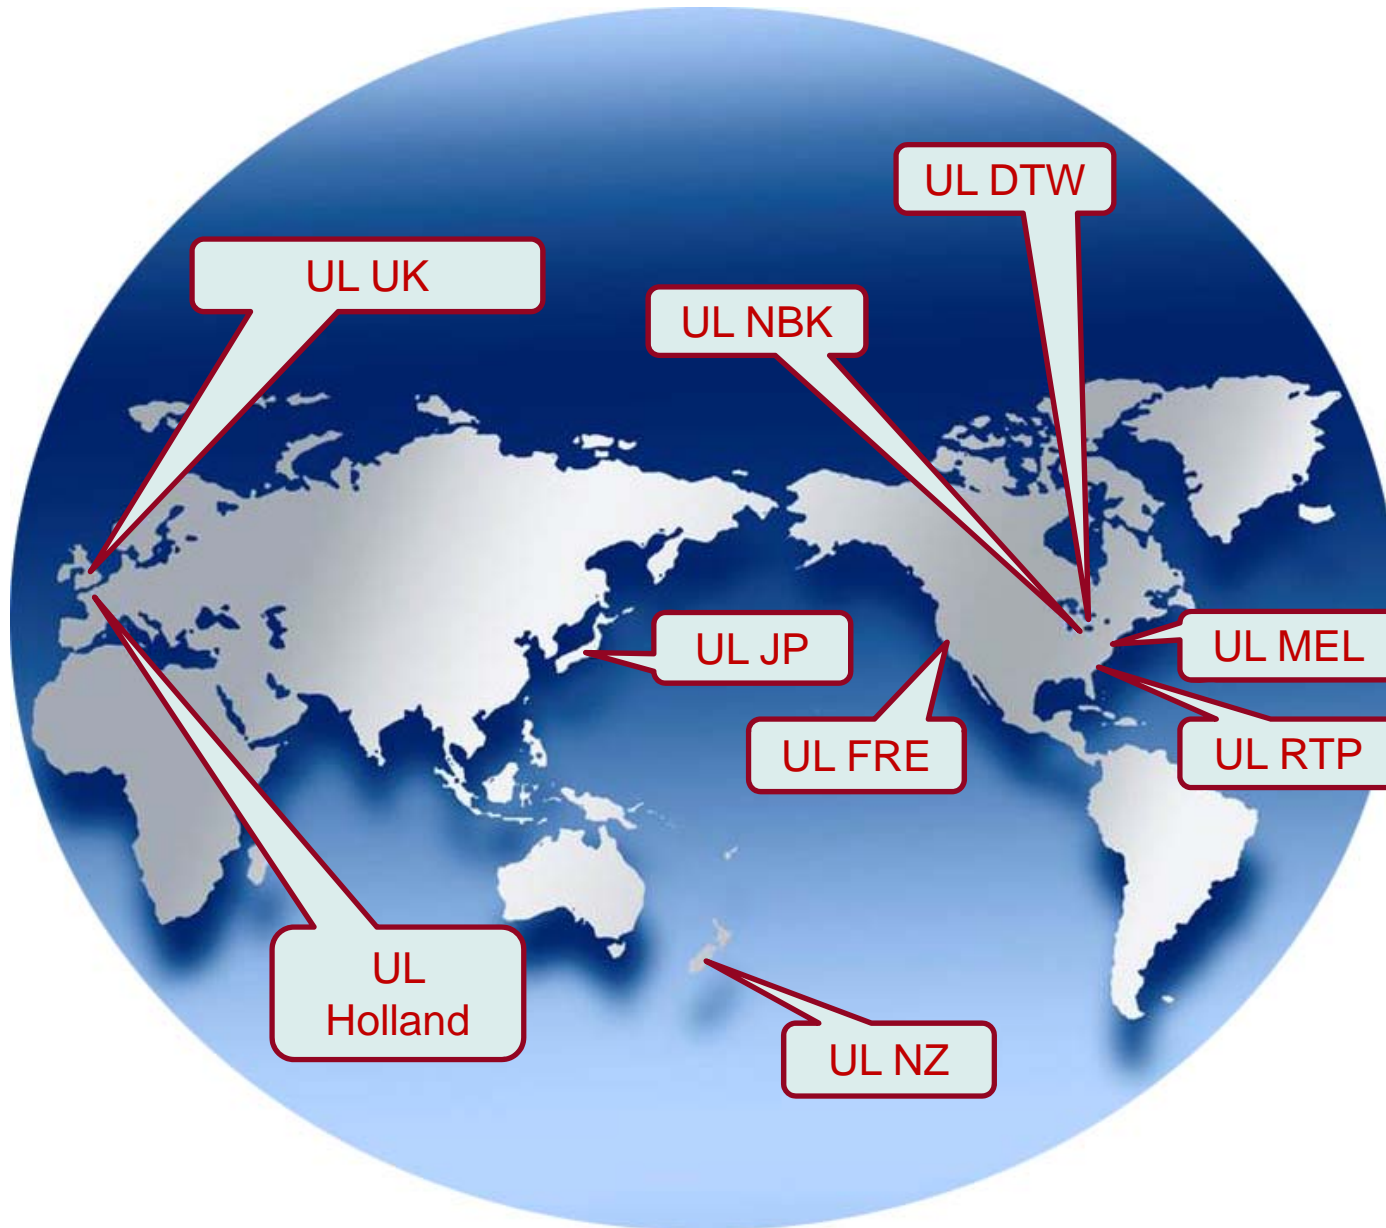

**Payments technology
(e.g. Terminal, Smart Cards,
Contact less)**

Security evaluations

RF/EMC Global Platform

Testing Locations – North America

RTP, NC

Northbrook, IL

Fremont, CA

Melville, NY

Novi, MI

Testing Locations - Europe

Basingstoke,
Hampshire, UK

Leiden, The Netherlands

Testing Locations - Asia

Ise, Japan

Yamakita, Japan

Yokowa, Japan

Shonan, Japan

Auckland, NZ

Services for Wireless

Business Segment

- **Wireless**

- Wireless Regulatory Testing (FCC, EU)
- Radio Performance
 - Including a wide range of products that operate using the key technologies of GSM, GPRS, EDGE, CDMA, UMTS, 2G, 3G, 4G/LTE
 - Radio products operating from 0Hz to 325GHz
- Over-The-Air (OTA) - CTIA
 - Antenna Pattern Testing
 - Different Cellular Technologies (CDMA, UMTS, GSM, LTE)
 - WiFi
 - WiFi and Cellular when operated simultaneously
- SAR (Specific Absorption Rate)
 - Covers GCF, FCC/ANSI, PTCRB, CE/ETSI requirements
 - HAC (Hearing Aid Compatibility)

Business Segment

- **Wireless**

- Global Wireless Certification Services

- #1 FCC/IC TCB Certifier - Over 2000 Certifications completed annually
- EU Notified Body
- Singapore IDA Certification Body
- Extensive experience in over 120 Countries
- Experienced staff in all 3 major markets (NA, EU, Asia)

- Wireless Certification and Standards Activities

- CTIA/C63 Standards Development Member
- Chairmanship of US FCC TCB Council
- GCF

The background of the slide is a repeating pattern of the letters 'UL' inside a circle, arranged in a grid. The text 'Services for Interoperability' is centered on the slide in a bold, black, sans-serif font.

Services for Interoperability

Business Segment

- Interoperability
 - Bluetooth Qualification Lab
 - Qualification, Development, and Regulatory
 - WiFi Alliance
 - 802.11x
 - **WirelessHD and WiGig Approvals**
 - 60GHz Wireless HD Protocol
 - Only 3rd Party lab approved for Certifications
 - Active Member of ZigBee Alliance
 - PTCRB/GCF Approved Test Lab
 - Wireless Charging
 - Active Member Of QI
 - Lead lab for Power Matters Alliance
 - OmniPass Automated Test System

The background of the slide is a repeating pattern of the letters 'UL' inside a circle, arranged in a grid. The text 'Services for EMC' is centered on the slide.

Services for EMC

Business Segment

• EMC

- Global Facilities covering all Consumer/Industrial Industries
 - Telecom NEBS
 - Verizon ITL Test Facilities and Witness Locations
 - Automotive/Military Component EMC Compliance Testing
 - Approved Test Labs for Ford, GM, Chrysler, Toyota, Honda, and many more
 - Vehicle Certification Agency (VCA) Approved Test Sites
 - Electric Meter accuracy testing (SMART Meters)
 - Electric Vehicle Charging Stations
 - Medical Devices
- EMC Software/Hardware Design and Consultancy
- International Approvals and Certifications
- EMC/EMF In-situ and Site Survey Services
- Product Mitigation Services

Test Facilities – SAR/HAC

Specific Absorption Rate / Hearing Aid Compatibility

Test Facilities – OTA

Over The Air Antenna Chamber

Test Facilities- 10-m Radiated Emissions Chambers

Test Facilities- 5-m Radiated Emissions Chambers

Test Facilities- Open Area Test Sites (OATS)

Test Facilities – RF Immunity

Test Facilities – Surge/EFT/Power Faults

Test Facilities – Wi-Fi & Wi-GIG

Test Facilities – Environmental Temperature/Humidity/Altitude

Test Facilities – Environmental Air Borne / Gaseous Contamination

Test Facilities – Environmental Vibration and Seismic

Test Facilities – Environmental Fire

Test Facilities – Environmental Outdoor Conditioning

Test Facilities – Environmental Outdoor Conditioning

Test Facilities – Automotive Component EMC

Test Facilities – Accuracy

Smart Meter Testing

Wireless Competency

THANK YOU.
