Subject: Human Error in the Data Center

Speaker: David Skeans, Director of Financial Markets, Danaher Power Solutions

This presentation will be an overview of Human Error in the Data Center - how to anticipate and understand what it takes to minimize its occurrence and impact on our critical power systems. Special emphasis will be given to EPO (Emergency Power Activation); Equipment bypassing errors; Downstream fault coordination, and UPS/STS/PDU (Uninterruptible Power Supply/Static transfer switch and Power Distribution Unit) interaction. Other related issues such as Countermeasures; Technician care & training; Operating procedures and Power Quality Equipment improvements will be discussed.

David Skeans is the Director of Financial Markets for Danaher Power Solutions. Danaher Power Solutions provides power quality solutions that protect critical points in the electrical infrastructure under the following brands: Cyberex, United Power, Current Technology, Joslyn Electronics and Superior Electric. David's credentials include a BSEE from Ohio University and a JD from Akron University. He has over 18 years of experience with low, medium, and high voltage electrical apparatus.

Pro Power is the manufacturer's representative for Danaher Power Solutions. We appreciate their assistance in making arrangements for this program.
