Subject: Fire Alarm Systems in CA and SF

This presentation is centered around the design and installation of fire alarm systems in California and San Francisco. Presented will be such topics as "Occupancy Code Requirements", "Fire Alarm System Wiring and Configuration", "Fire Alarm System Components, Uses and Installation", "Interfacing Fire Alarm Systems with Other Building Systems" including Smoke Control, the "Requirements for System Testing and Commissioning" and "Plan Approval Guidelines".

Mr. Kapis is a consultant for Rolf Jensen & Associates', Inc. (RJA) in their San Francisco area office. His experience spans 25 years in the fire alarm and security industry with several of the prominent manufacturers and suppliers of fire alarm and life safety systems. Mr. Kapis has been responsible for the design and implementation of numerous fire alarm, smoke control and life safety systems for projects throughout California, Nevada, Washington, Arizona and Idaho. Jon has developed curriculums and regional training centers for the advancement of technical skills in the fire alarm industry. He has conducted regional training and prepared guidelines for NICET certification in the fire alarm systems. Mr. Kapis is the Chair of the Plan Review Guidelines Committee of the California State Fire Marshall. He is a committee member of the NFPA-72 Fire Alarm Code. He is certified by NICET in Special Hazards, Fire Protection and Fire Alarm Systems, and he maintains his certification in Smoke Management Design and Engineering from ICBO. He is also involved with regulatory agencies to establish equivalent facilitation and compliance with codes and standards that affect the fire alarm industry.
