Subject: Conductors

Speaker: Richard Temblador - Director, Product Development, Southwire Company

This presentation will focus on conductors and will review 600 volt insulating materials, products, and selection parameters. There will also be a brief review of new products currently under development.

Richard Temblador is Director, Product Development, Electrical Division for Southwire Company in Carrollton, Georgia. He is a member of NEC Code Panels 5 & 8, and has previously served on NEC Code Panel 7, UL Standards Technical Panel 4 (covering AC and MC Cables), and the NEMA 7RV Building Wire Technical Committee.

Assisting with the presentation will be **Jim Bright**, Western Regional Manager for Southwire Industrial Products Division. Jim manages all industrial products including, Medium Voltage Tray Cable, Armored Cable, Transit, and MC Feeder Cable. He has 18 years in the electrical business including 11 years with 3M Electrical Products Division, and 4 years as District Manager with The Okonite Company.

Please join us in welcoming our speakers to San Francisco for what is sure to be an interesting and productive session.
