Subject: DALI – Big and Small

Speaker: Richard N. Miller, PE, LC – RNM Engineering

Rick Miller will speak about his experience in designing and commissioning two DALI installations. DALI is an emerging lighting control technology that many are still unaware of. Join us this month for our March presentation as we hear of successful DALI case installations, and how DALI is evolving into the next generation of architectural dimming.

Our speaker for March is **Rick Miller, PE, LC - RNM Engineering**. Richard N. Miller has more than 28 years of project experience. Mr. Miller has provided lighting and electrical engineering services for commercial, industrial, and governmental facilities having designed power, lighting, control and fire alarm systems. He has recently developed a website, www.DALIbyDesign.us, devoted to DALI products and installations in the United States and North America.

Please join us in welcoming our speaker to San Francisco for what is sure to be an interesting and productive session.
