

Your IEEE Hamilton Section invites all members to attend...

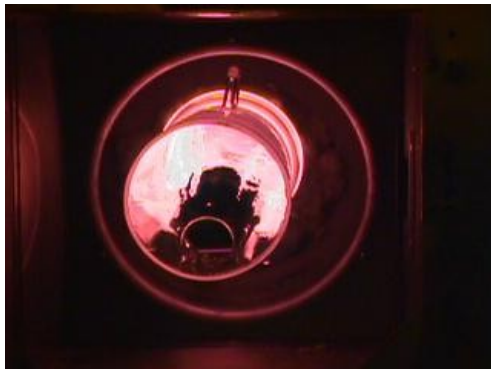

Engineering Technology Lab Facilities Tour

Thursday May 23, 2002
8:00pm

Niagara College - Welland Campus

Niagara College has established a unique series of laboratories for training and industry-led applied research in photonics, telecommunications, microelectronics, wireless communications and system control. The lab facilities include a clean room, advanced optics, fibre-optics and an anechoic chamber for wireless technology. The Photonics program, at Niagara College, is the first specific, undergraduate level photonics skills training in Ontario! The Microelectronics Manufacturing program offers chip design, circuit design, laser technologies, thin film processing, wafer fabrication, thick film technology, photolithography and microjoining technology.

The Niagara College Technology Lab coordinators have offered to host the IEEE Hamilton Section members for a tour of their world-class facilities.

For those unfamiliar with the campus or interested in gathering earlier...head for MT Bellies located on Niagara street in Welland between Hwy 20 and Woodlawn for approx 7:00pm.

Refreshments will also be provided following the tour and an opportunity to meet / network with your IEEE peers.

Driving Directions to the Welland Campus (300 Woodlawn Road, Welland, Ontario)

From Queen Elizabeth Way:

- Exit QEW at Hwy. 406 South. Follow the 406 through St. Catharines and past the intersection of Hwy. 20 to Woodlawn Road.
- Turn right onto Woodlawn Road and proceed to the third stoplight. The campus is located on the right, just past the stoplight at First Avenue.
- For the main entrance, turn right onto First Avenue at the third light, then left at the second driveway. Five flag poles identify the main entrance.
- Campus parking details to follow...watch for mail or if necessary contact Janet at 905-632-2999 x2189 up to 5pm on May 23 to inquire

In addition, a map is available at: <http://www.niagarac.on.ca/info/region/mapwc.htm>

...hope to see you there!

Other upcoming events to watch for...

June – Electronic Surveillance and Tracking Lecture
July – Casino Niagara tour and social event
Sept – Hamilton Section 50th Anniversary Celebration
Fall – Tour of Rockwell Automation in Cambridge

And lastly...

Please take a moment to visit our IEEE Hamilton Section website. Your comments and ideas on how to improve the section are always welcome!
