

IEEE Hamilton Section

Technical Meeting

Biomedical Engineering Seminar

Topic: Medical Devices for the New Oakville Hospital

Speaker: Neal Dardaine, Manager of Biomedical at Halton Healthcare Services

Date: Wednesday 2014-Dec-17

Time: 7:00 PM - 8:00 PM

Cost: None (Paid parking on site)

Location: Oakville-Trafalgar Memorial Hospital, Auditorium (in the basement)
327 Reynolds St., Oakville, ON L6J 3L7

Directions: oakville-trafalgar-memorial-hospital.html

Free coffee and cookies.

Register here (so we get enough refreshments) <https://meetings.vtools.ieee.org/m/29783>

ABSTRACT

In preparation for the opening of the New Oakville Hospital in December 2015, great efforts have been placed in procuring medical devices that optimizes the vast array of newer technologies and ICT infrastructure at the site. The Biomedical group at Halton Healthcare Services currently supports approximately 3,600 medical devices at Oakville Memorial Hospital and will increase to over 12,000 devices at the New Oakville Hospital.

Speaker Biography

Neal Dardaine is the manager of Biomedical at Halton Healthcare Services. He has been in the medical industry for over 25 years and has worked both in hospitals and for medical device manufacturers.
