 \* - recommended

### Patentability Working Table

	Function/Structure	(prior art name)		
1.				
2.				
3.				
4.				
5.				
6.				
7.				

- Write in the name of the prior art reference(s) at the top
- List all the functions or actions or structures that are happening in the invention
- For each prior art reference, check off the functions/structures that are and are not found in the references
- If you are not sure, put a question mark beside the function and come back to it later
- After comparing and eliminating, all that you should have remaining are the unique features of your invention
