

WINNIPEG WOMEN IN ENGINEERING  
Generating New Power - Wuskwatim

## Building a new Generating Station: Wuskwatim

Manitoba Hydro is currently undertaking the first new generating station in 20 years, building Wuskwatim G.S. in northern Manitoba.

Come hear Terry Armstrong, Department Manager of Wuskwatim Construction talk about the process of building a \$1.3 billion dollar, three unit 200 MW generating station set to begin producing power in 2012.

**October 12, 2010**  
**Manitoba Hydro Place**  
**360 Portage Avenue**  
**Doors Open 6:30pm**  
**Presentation at 7:00pm**

Cost is \$5 for IEEE members and industry and free for students.

*Light refreshments will be provided.*
