

2002-02-06

Dear Sir/Madam,

We offer researchers a tool to perform clinical validation of research results or integrate new solutions for medical imaging and radiology into a Picture Archiving Communication System, PACS, environment. We would like to offer you, completely free of charge, the software for a complete PACS, together with access to imaging APIs.

Sectra Imtec AB and Sectra PACS

Sectra Imtec AB is an independent company from Sweden, founded by researchers from Linköping Technical University. We provide the Sectra PACS software, which is the leading PACS product in the Nordic market, and through our strong partnership with Philips Medical Systems, one of the foremost PACS solutions in the world.

Free PACS software for research purposes

Being a company built from research, we would like to continue our strong relationship with researchers around the world. We provide an infrastructure and a toolbox for researchers to integrate solutions, or validate research results, on one of the most used PACS solutions in the world. All this is free of charge when you join the Clinical Solutions Network™

Sectra at the European Congress of Radiology, ECR

We would like to meet with interested researchers, and present our research network at the ECR in Vienna, 1-5 March 2002. Please send, call or e-mail the manager of the Clinical Solutions Network™, Jakob Algulin, if you are interested in such a meeting. Phone: +46 70 22 10 464, E-mail: jakob.algulin@sectra.se

Best regards,

Sectra Imtec AB
