

# Photonics - A Celebration!

3 April 2008, School of Physics and  
Astronomy, University of St Andrews

The generosity of SUPA and the IEEE/LEOS Scotland Chapter we have a limited number of funded places available for PhD students and Postdocs to attend “Photonics - A Celebration!” at St Andrews on 3 April 2008. The outline programme for the meeting is shown on the following pages and we are expecting this to be a very popular event.

As part of the meeting, we will be holding a poster session highlighting the best photonics research from students and postdocs with a prize for the best poster.

If you would like to attend this event, please email Lesley Aitken ([lma1@st-and.ac.uk](mailto:lma1@st-and.ac.uk)) by Monday 10 March 2008. Please also include a poster title if you wish to take part in the poster session.

In the likely event of the available number of places being over-subscribed, priority will be given to those who wish to present posters at the meeting.

# Photonics - A Celebration!

3 April 2008, School of Physics and  
Astronomy, University of St Andrews

The birthday celebrations for Professors Malcolm Dunn and Wilson Sibbett have provided a timely opportunity to mark the efforts underpinning the renaissance in optical sciences research that took place at St Andrews from 1975-2000. The School of Physics and Astronomy, University of St Andrews will be hosting a 1-day meeting on 3 April 2008 where key international leaders in Photonics will be presenting research overviews and providing an historical perspective on developments in their fields.

## Speakers at the meeting include:

**Professor Malcolm Dunn**

*University of St Andrews*

**Professor Ted Hänsch**

*Max-Planck-Institut für Quantenoptik, Munich*

**Professor Eric Van Stryland,**

*CREOL, The College of Optics and Photonics, University of Central Florida*

**Professor Erich Ippen**

*Professor of Electrical Engineering and Physics, MIT*

**Professor David Miller**

*Ginzton Laboratory, Stanford University*

**Professor David Hanna**

*Optoelectronics Research Centre, University of Southampton*
