

IEEE Seminar

Modeling and Simulation of Power Electronics in Aerospace Applications

Location: Synopsys (Northern Europe) Ltd, Imperium, Imperial Way,
Worton Grange, Reading, RG2 0TD, +44 (0)118 931 3822
Date/Time: 10am-4pm Tuesday 21st November 2006

Confirmed Speakers include:

Dr Patrick Wheeler, University of Nottingham, UK
"Power Conversion for the Future, More Electric Aircraft"

Professor Mark Zvolinski, University of Southampton, UK
"The Secrets of Analogue Simulation"

Dr Peter R. Wilson, University of Southampton, UK
"Automated documentation of simulation results for aerospace applications"

Mark Holme, Goodrich Corporation, UK
(title to be announced)

Adrian Szabo and David Moule, TRW, UK
"Determining Losses in Power Electronic Systems Using Modelling and
Simulation"

Walter Sabia, Synopsys GMBH, Germany
(title to be announced)

Registration:

To register, please send an email to Dr Peter Wilson (prw@ecs.soton.ac.uk) with the text "IEEE Seminar Registration" in the subject of the email. Please confirm your name, affiliation, and email address where we may contact you.

Spaces are limited, so early registration is recommended.

The seminar is free and lunch will be provided.
