

## CONTIGUOUS SECTION AFFILIATION

Your IEEE mailing address automatically determines your Section affiliation. Normally, a member will live and work in the area of a Section. However, you may choose to affiliate with a neighboring Section instead of your own. This is common among commuters, people who live near Section boundaries and students who maintain a permanent mailing address in a Section they would not be affiliated with if they used their school address.

If you would prefer to affiliate with a CONTIGUOUS SECTION, one adjacent to your current Section, simply fill out the following form and **fax it to 732.463.9359** or mail it to:

IEEE Regional Activities  
445 Hoes Lane, PO Box 1331  
Piscataway, NJ 08855-1331

Once this change is made, you will receive meeting notices, newsletters and other information from the new Section, and only that Section. You will be on that new Section's roster with the mailing address you have provided.

Should you change your address in the future, it will invalidate this request for Section affiliation. If you have any questions, please call 732.562.5513 or 732. 981.0060.
