- The final Engineering the Future event took place on Thursday, 23 October in Tokyo, where about 200 IEEE fellows, students, academia, distinguished technology leaders, industry professionals and customers listened to a key note presentation by former astronaut, [Dr. Mamoru Mohri](#). Mohri is Chief Executive Director of the National Museum of Emerging Science and Innovation(Miraikan), Welcoming remarks were provided by IEEE President John Vig and Region Director, Y.J. Park.
- Grass roots activities such as a Student World Congress, hosted by Region 10, and a collaborative anniversary greeting video conceived by GOLD members helped to spread the anniversary around the world. The video, with over 30 contributions from a wide variety of countries, can still be found at [www.goldaroundtheworld.com](http://www.goldaroundtheworld.com). Contributions to the video can be made until 31 Dec 2009.
- Twenty-five grass roots events were listed on the anniversary calendar to take place on **IEEE Engineering the Future Day**, 13 May, the official anniversary date. They spanned the globe from Ohio, Michigan, and Virginia in the US; to Belgium, Ghana, Italy, Jordan, Portugal and Spain in Reg 8; to Ecuador, Honduras, Panama and Peru in Reg. 9, and Australia, India, and Pakistan in Reg. 10, and more.

THANK YOU
