Bali is one of thousands of islands constituting the Indonesian Archipelago that has long been renowned as an eminent tourist destination in the World.

Bali is a wellknown paradise for tourists,

Many names have been given to this beautiful island, like, 'The Paradise on Earth', 'Morning of the World', 'The Island of the Gods', as well as many other names.

its climate is warm and humid around 27–32 °C.

The island covers 5,632.86 square kilometres.
About Bali - Indonesia

- It has for centuries lured visitors with its exotic and vibrant culture, natural scenic beauty and panorama, and friendly smiles of the people.
- It offers a beautiful white sand beaches which are safe to explore seaside.
- Their traditions and beliefs based on Hinduism, has dotted the island with ancient remains, ornately sculptured temples or holy places.
- It is renowned for its highly developed arts, including sculpture, painting, leather, silver metal-working and traditional Balinese.
