10/5/06	6	Admin.	EXCON	N/A
10/10/06	16	Admin.	Senior Membership Drive	N/A

Future Meetings

Our fall meetings will continue with several more functions. The section will be hosting a luncheon for the Power System Protection and Relaying Symposium

that the FAMU/FSU College of engineering will be having November 6th. Also November 16th we will have a dinner with the chairman of the FAMU/FSU College of engineering Dr. Debruner. He will be presenting the state of engineering at the FAMU/FSU College of Engineering. This meeting will also serve to present and vote on the nominations for the officer positions. In December we will have our final event, which is the holiday social. This meeting is an informal time to wrap up the year and present the new officers for the next year.

We are looking forward for the years to come and the future growth of the Tallahassee Section.
