

# Southeastcon 2010 Region 3 Meeting

## **Directors Report**

March 20, 2010

**Lee Stogner**

Region 3 Director

[l.stogner@ieee.org](mailto:l.stogner@ieee.org)

In difficult economic times, Region 3 has the challenge of providing services to its members and to the community.

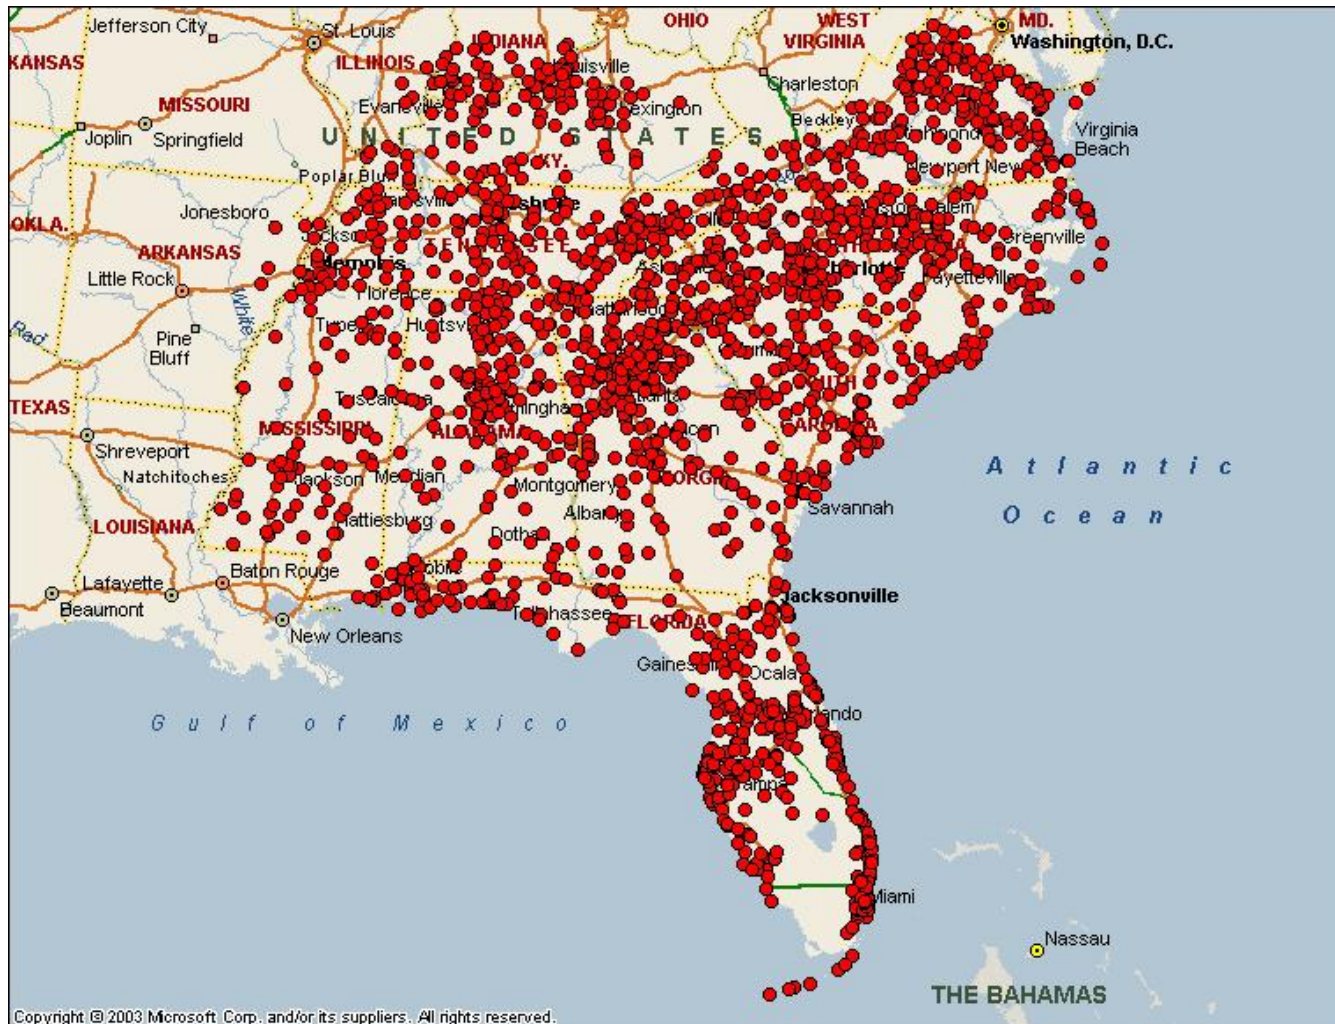

I believe we are up to the challenge.

First, we need to address the organizational needs of building the team and ensuring that we have the accurate information to connect to over 33,000 members in Region 3.

Information is only information, let's build relations that can allow us to create a IEEE Network that will support everything that we set as a goal.

# The membership of Region 3

Second, we need to assess our situation and develop the organizational plan for the next two years.

This plan should include the core elements of the Region 3 ExCom and other activities needed to react to external factors such as the economy and opportunities for the growth of our members.

Finally, whatever we do, it should become the foundation for the Region 3 of tomorrow. Our resources are finite, many opportunities may only come once, let's take care of our fellow members and set the example for the rest of The IEEE.

Thank you !
