## IEEE Melbourne Section Report to March 2010 Region 3 Meeting

### Issues requiring action by the Region 3 Committee or EXCOM:

- None

### Notable Section Activities:

- Active Technical Society Chapters are: Joint AP/MTT, Joint Signal Processing/Communications, EMC
- Active Affinity Groups are: Consultants Network, Life Member, GOLD
- All chapters and groups met their meeting requirements in 2009; additionally the Section held social events including a Spring picnic
- Career development activities became a focal point for Section activities, given the uncertainty of the engineering job outlook on Florida's Space Coast. The Section held 2 Career Development meetings in 2009, and plans to hold more in 2010. These were joint meetings with the Canaveral Section. The meetings included discussions on topics such as good resume writing and making efficient use of professional social networking websites.
- The Section supported local secondary educational events, including awarding IEEE prizes at the Southern Brevard County School Science Fair, and presenting two lectures at the Brevard County School Teacher's Conference
- The Section maintains strong ties with the local Student Chapter at the Florida Institute of Technology
