#	Response
1.	SAMIEE
2.	Finances - L50 - New IEEE Section Tax
3.	NetSuite training is needed desperately, especially since they just changed it again.
4.	MGA boundaries and Financial
5.	Treasurer duties

Which webinars? |

#	Response
1.	Most of the webinars except for membership development through career support
2.	Any if needed
3.	Will help where useful. Don't have much slack time right now, working 7 day schedule to keep NASA SLS deliveries on schedule...
4.	All
5.	Fall Professional Career Support
6.	Membership Development through Career Support Specifically for IEEE to work with industry in Region 3 and with other related societies such as AIAA and Association for Unmanned Systems International AUVSI.
7.	* Member Development through Section Actions * Fall Professional Activities
8.	Answered 'No', as I am not sure exactly what is being covered and if I would be able to contribute. If help in a specific area (e.g. use of the IEEE Voting Tool) is needed, please ask and I will attempt to help.
9.	Ask IEEE and maybe (depending on content) Fall Professional Activities
10.	Membership Development through Career Support. Hilighting the following: - benefits of starting a Section Employment Network - IEEE-USA career tools available

Other input to the Region 3 Planners: |

#	Response
1.	Good survey... Is this being sent to all members in Region 3?
2.	Interested in participating in LD / MD activities again
3.	The Fall face-to-face meeting is very important to the overall operation of the R3 Sections and without it the Sections will feel even more isolated. Webinars will only fill a small portion of the interaction and networking gained by a face-to-face meeting.
4.	An interactive hands-on training in NetSuite could help prevent or at least minimize the problems we had last year, especially since they just changed NetSuite again, giving us (the Section) even less access than we had before.
5.	Also, conference planning and support should be the focus of all IEEE Sections since income comes from these three sources: Membership dues/rebates Publications (Xplore and Journals) Conferences
6.	Not available on several dates so if input to webinar or webinar participation desired coordination and significant lead time required to work around other commitments.
