IEEE-USA 2014 Annual Meeting (May 15-18, Providence, RI)

Region 3 participation at this meeting appears to be well below previous years. Please review the following list and let me know of anyone you believe will be Attending that does not appear there. Better representation is desired, but in need of immediate attention is the identification of attendees missing from this list. An accurate participation count is needed in order to reserve sufficient space for the 5/16 Region 3 Dinner and bus transportation. Send me the name and email address of other attendees so I can solicit dinner participation for themselves and if attending their significant other. **Input needed by 4/9.**

MOVE Project

Focus group meetings with Hurricane Sandy survivors at IEEE HQ are being held. This is the first step in validating with survivors the value of services that MOVE can provide. Similar validation with Emergency Management Officials has started as has outreach to primary disaster response organizations like the Red Cross and the Salvation Army.

If you have an interest in this project either as an involved team member, or just as a casual participant, please let me know. Those with a casual interest will be added to the MOVE [AT] IEEE.ORG mail list. Others will be contacted to determine the nature and extent of their desired involvement.
