

EEE Mississippi Section Status 11OCT2015

Monthly SSCET Organizing Committee meetings in May, June, July, August, September and October for the Southeast Symposium on Contemporary Engineering Topics (SSCET) to be held in Jackson, MS on 7,8 April 2016.

On Friday 9)OCT2015, I met with Tom Field, Mahmoud Monzoul and Khalid Abed at JSU with Catherine Anderson on the telephone to work on plans for the SSCET conference to be held in Jackson, MS on 7,8 April 2016. I signed Financial and Policy Memorandum of Understanding and Dr. Monzoul will forward to JSU for review and signing.

The IEEE Mississippi Section has held six meetings this year and these are reported in vTools as required. Let me know if you have trouble accessing these reports using your IEEE web account and I will contact IEEE.

IEEE Mississippi Section Website issue

During May 2015, Eric T. Lee, Section webmaster stopped responding to requests for updates. He has claimed that the website domain

www.ieeems.org and content belong to him. Eric T. Lee has not submitted any requests for website maintenance until August 2015 when he demands \$2,000 to be paid before the IEEE Intellectual Property can be returned to the Section.

IEEE Legal counsel Jon Wiggins has contacted Eric T. Lee to request return of IEEE IP and settle the issue. As of 11 October 2015, no settlement has been reached. Ray Franco, Past Section Chair and webmaster and Khanh Luu, IEEE Web administrator have created an IEEE hosted website for the Section at www.sites.ieee.org/mississippi but we are missing content.
