

IEEE Mobile Section Report

- IEEE Mobile Section monthly technical meeting is held jointly with the ECE Department, University of South Alabama (USA) which became an attractive event for professionals working in local industry as well as USA ECE, Computer Science and IT students .
- Provided technical assistance to the University of South Alabama (USA) student team to prepare them to participate in the IEEE SouthEastCon 2016 Robot Car Competition
- Established strong interaction between the USA Student Branch of IEEE (Two Mobile section members assisted the students to solve technical problems associated with their NASA CubeSet project)
- One executive committee member is working on further enhancing industrial outreach activities i.e., attract more members from local industry
- Actively participating in the MACE (Mobile Area Council of Engineers) activities
