I have completed the revision of the IEEE Region 3 ByLaws according to the motion passed by the IEEE Region 3 Committee on April 2, 2017.

Attached is a copy of the new version of the Region 3 ByLaws.

However, I have not been able to locate a source copy of the ByLaws. The revisions that I made were to a Word .DOCX file made by Secretary Battaglio. If anyone knows the location of the source file for the ByLaws (last modified December 29, 2009) please let me know.

The new version of the Section V of the Operations Manual is also complete. It needs to be integrated with the other Sections.

Both of these new documents need to be added to the Region 3 web site. They will carry a "last modified" date of April 2, 2017, the date of the Region 3 Committee meeting during SoutheastCon 2017.
