CC: Region 3 Committee Report
From: Sonya Dillard, R3 MAC Chair

April 16, 2018

The committee has met once this year via Teleconference. We have also talked one-on-one via phone calls and communicated via email. We plan to meet for our first Face-to-Face on Friday, April 20, 2018 during the SoutheastCon 2018 events. A subset of the MAC will meet on Thursday afternoon for brainstorming in St. Petersburg, Florida.

A presentation providing an overview of the Member Activities Committee for Region 3 Committee members has been created on the PowerPoint template provided by Gregg Vaughn on 4/3/18. This fulfills Director Vaughn's request for an MAC presentation to the Region 3 Committee at SoutheastCon 2018.

Two Mentors for this committee were assigned by the SOSC and they are: Bill Ratcliff w.ratcliff@ieee.org and Lee Stogner l.stogner@ieee.org. We will be utilizing their advice for our goals and future planning.

We have reviewed the IEEE Strategic Plan 2015-2020 and look forward to seeing what the latest version of the 2018 Strategic Plan has in store for us. Once released we will align our goals, plans and actions to help implement this updated strategy. We will report these to both the R3 Director and David Green, R3 SOSC. The MAC also works closely with Mark Torres and his committee Section Support Committee (SSC), since we will be sharing information to disseminate to Sections.

The following MAC Roster has been distributed to all members for easier communication.
