To: r3-excom2019@IEEE.ORG <r3-excom2019@IEEE.ORG>; IEEE Region 3 Sections <sec-r03@IEEE.ORG>; David Fillion <dfillion@IEEE.ORG>; Mark Stokes <m.stokes@IEEE.ORG>

Dear Region 3 Executive Committee Members,

The SC Council is actively exploring ways we can expand the value of Membership to our four Sections across the state. This includes,

- All Sections participated in Leadership Training on January 19th at UNCC.
- SC Council meeting was held during the Leadership Training at UNCC. Discussions were held and initial Goals set for the year.
- IEEE Membership would like to use the SC Council as a Test Case to develop new ways to promote Membership Development.

Other activities include identifying training for skills in Cybersecurity, AI, Internet of Things and Entrepreneurship.

The SC Council is also interested in developing relations with elected officials, companies and Universities to expand our career options. Lee Stogner is building these relations with,

- Visit to our Senators and Congressmen on April 3 in Washington.
- Contacting SC Companies and Universities to discuss the importance of hiring IEEE Members.
- Developing other training that will enhance Member Career Development.

Lee Stogner will host a [Entrepreneurs Program in Limerick, Ireland](#) on April 15 as part of the IEEE World Forum of IoT. This program will be given in South Carolina later in 2019.

David Fillion will host meetings with the SC Council during Southeastcon 2019 to further discuss Section needs and assign priorities.

Lastly, the SC Council will coordinate with Region 3 Membership Development efforts.

Sincerely,

Lee Stogner, PMP
