Subject: IEEE R3 Winston-Salem Section Chair SECON 2019 report
Date: Tuesday, April 9, 2019 7:57:20 PM

Win ston-Salem IEEE section

Issues requiring action by the Region 3 Committee or Ex-Com

1. Consolidate and simplify reporting.
2. Understand members needs from their perspective.

Successes/Opportunities for Engaging the member

1. Providing technical support of STEM instructors through projects like Robo Research is gaining broad section membership support.

Notable Section Activities

1. Seeding middle school, high school and community college student clubs for robotics and 3D printing projects improves the pipeline for technical employment and engineering candidates.

The Winston-Salem Section now has five years experience.

Local W-S plans for 2019 include: (Budget forecast was submitted in January)

- 12 technical/professional meetings.
- Quarterly Ex-Com meetings and monthly Ex-Com summaries
- 2 EMBS chapter meetings
- 2 WIE events
- 2 celebrations,,, Pi Day in March and IEEE day in October.

SECON participation by Section Chair

Robo Research support. Section has committed \$ 2,000 per year towards robotic projects.

Submittal of revised section by-laws

Election of officers

Member growth. Plans for individual recognition of local engineering achievements.

Business cards for every member.

Publication of a quarterly newsletter.

Update websites.

Detailed information available upon request and through OU Analytics, v-tools and websites..

Best regards, Carroll

Carroll Perkins
