MOVE: In a Nutshell

- For Disaster Survivors
- Who have survived the initial catastrophe,
- MOVE (Mobile Outreach Vehicle)
- Is an IEEE Project that creates and operates a vehicle for disaster relief
- That provides needed communications, light & power support to victims
- Unlike some First Responder Efforts (e.g., ARRL, RACES)
- Our project is intended to help the disaster survivors by supplying valuable services until normal infrastructure is restored.
- Additionally it energizes the IEEE volunteer base, highlights skills, promotes public awareness and more
