This year's plan: the move to Hybrid events

What is IEEE Day?

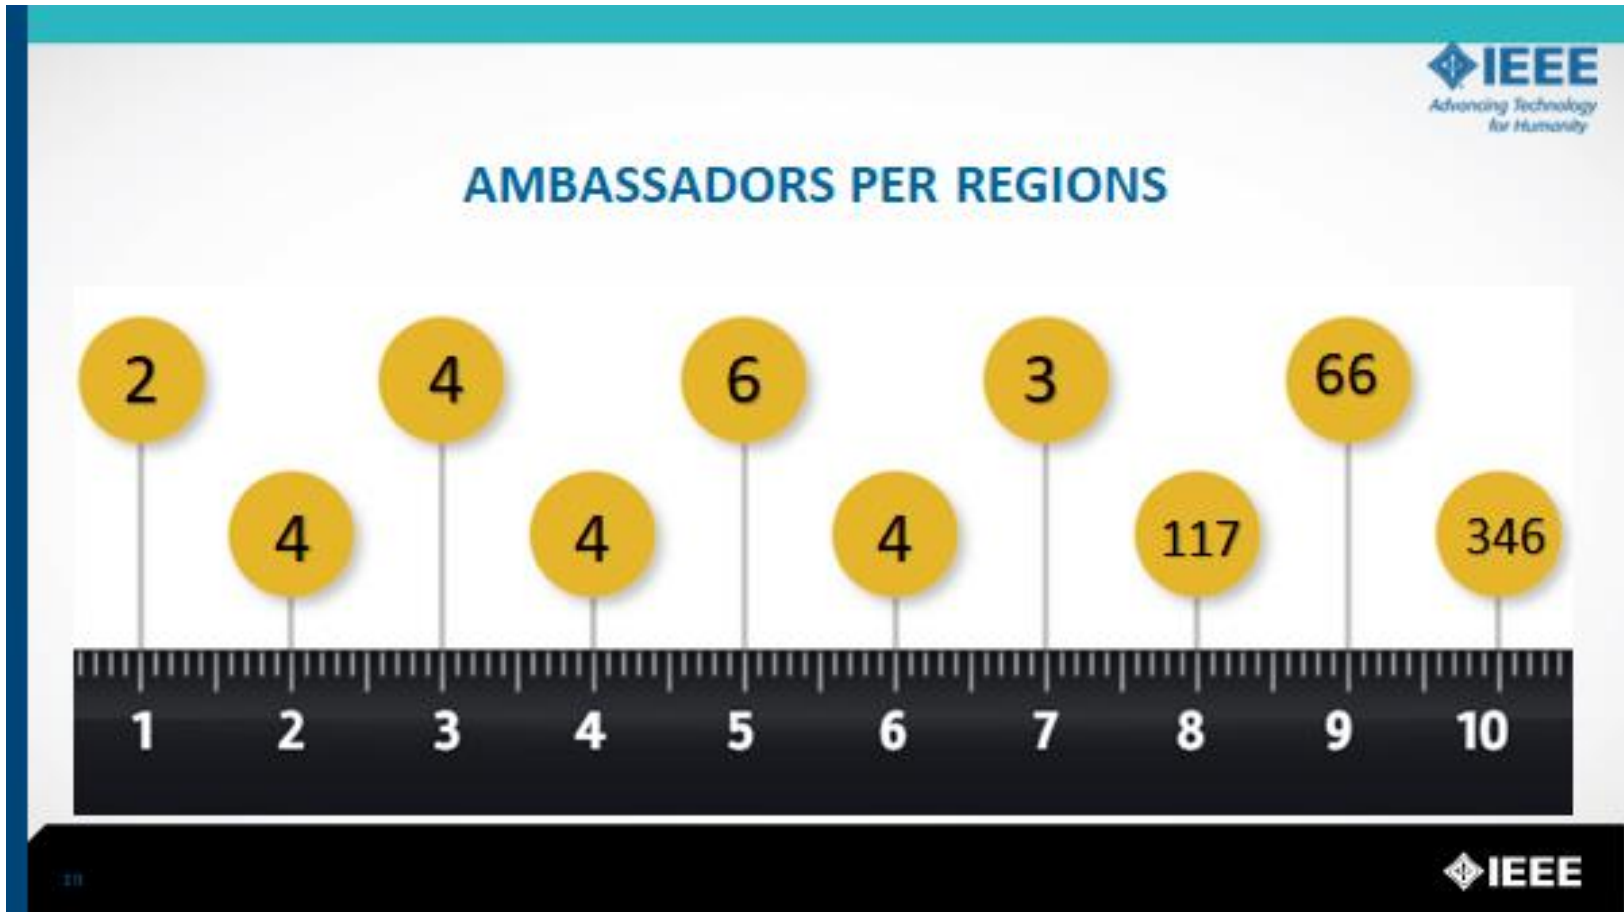

Celebration came out of an IEEE MGA challenge

IEEE Day is celebrating the First time in history when engineers gathered to share their technical ideas in 1884.

Worldwide celebrations demonstrate the ways thousands of IEEE members in local communities join together to collaborate on ideas that leverage technology for a better tomorrow.

Now engraved in its essence, the IEEE Day's theme is: "Leveraging Technology for a Better Tomorrow." While the world benefits from what's new, IEEE focuses on what's next.

IEEE Day IEEE.tv Channel

<https://ieeetv.ieee.org/channels/ieee-day>

The video player interface shows a video titled 'Is 5G Here Yet?'. The video thumbnail features a collage of images: wind turbines, solar panels, a woman in a lab coat, a robotic hand, a man looking at a screen, and a circuit board. A large play button is centered over the thumbnail. Below the thumbnail, there is a small portrait of Lola Awoniyi-Oteri, PhD., with her name and affiliation: 'Lola Awoniyi-Oteri, PhD. Wireless R&D, Qualcomm Technologies Inc'. To the right of the portrait is the IEEE Industry Engagement Committee logo. At the bottom right of the video player is the IEEE logo with the tagline 'Advancing Technology for Humanity'. A small number '1' is visible in the bottom left corner of the video player.
