

IEEE R3-AREA 3 Report for January 24, 2022 EXCOM Mtg

- **Issues requiring action by the Region 3 Committee or ExCom**
 - No new issues

- **Success/Opportunities for Engaging the Member, Volunteer, Non-Member, Public**
 - I have been getting my bearings and working on understanding what my responsibilities to Region 3 and Area 3 Sections include

 - My first opportunity to address all sections will be at our Florida Council February 5th meeting. I will be laying out a working plan for the Sections to review, add to and work together to put in place early on in 2022

 - My preliminary action items for Area 3 Sections include:
 - How can we work together as Sections to maximize our member reach, interests, training/activities/presentations and retention?
 - What kind of activities can we concentrate so that we can enjoy working closely with each other as Sections while obtaining maximum results for the Section and for IEEE?

 - We are looking forward to a great 2022!!!! I look forward to bringing the Area 3 Sections together as a family within Region 3 and IEEE!

- **Notable AREA activities (Positive and Negative)**
 - The year is just beginning but I have already had the opportunity to work with the R3 ARC in reviewing and qualifying the awards for 2021. I consider this a key activity with a humbling opportunity to award members of IEEE who have achieved impressive education, working and IEEE achievements

 - I look forward to reporting our monthly Area 3 achievements to the R3 ExCom in the months to come

Raul Ortega
