

IEEE R3-AREA 3 Report for February 21, 2022 EXCOM Mtg

- **Issues requiring action by the Region 3 Committee or ExCom**
 - No new issues

- **Success/Opportunities for Engaging the Member, Volunteer, Non-Member, Public**
 - I continue getting my bearings and working on understanding what my responsibilities to Region 3 and Area 3 Sections include. I am becoming familiar with the sections in my Area and getting to know the leadership in each section by starting small projects that are mutually beneficial to all our area section members

 - I was able to discuss my participation as Area 3 Chair in the Florida Council meeting of February 5th. The council voted to allot time to the applicable Area Chairs for an opportunity to address their sections in topics of mutual interest

 - My preliminary action items for Area 3 Sections include:
 - What will it take to get non participating or sluggish sections to come up to speed and get super active?
 - How can we work together as Sections to maximize our member reach, interests, training/activities/presentations and retention?
 - What kind of activities can we concentrate so that we can enjoy working closely with each other as Sections while obtaining maximum results for the Section and for IEEE?

 - We are looking forward to a great 2022!!!! I look forward to bringing the Area 3 Sections together as a family within Region 3 and IEEE!

- **Notable AREA activities (Positive and Negative)**
 - I have been concentrating on catching up with all our Area 3 Sections as I am able to establish comms with them. Of urgent interest is getting those sections that are lagging in participation and performance to change their goals and motivate their leadership and members to participate more

Raul Ortega
