

IEEE R3-AREA 3 Report for October 17, 2022 EXCOM Mtg

- **Issues requiring action by the Region 3 Committee or ExCom**
 - None

- **Success/Opportunities for Engaging the Member, Volunteer, Non-Member, Public**
 - I continue communicating with the sections and leadership in my Area and getting to know the leadership and key contacts. I am making plans to meet with each Section Chair and members personally as soon as possible. I am also concentrating on the sections that do not participate in the Florida Council meetings

 - I will continue to work on Area 2 and 5 Chairs to participate in the next Florida Council meeting so that we can coordinate our strategies for all Florida Sections. I have sent them the minutes from the last two meetings and will be inviting them to the next meeting, currently planned for December 2022

 - My preliminary action items for Area 3 Sections include:
 - Define what it will take to get non participating or sluggish sections to come up to speed and get super active
 - Work together as Sections to maximize our member reach, interests, training/activities/presentations and retention
 - Define the kind of activities that we can concentrate on so that we can enjoy working closely with each other as Sections for maximum IEEE overall benefit

- **Notable AREA activities (Positive and Negative)**
 - Currently have plans to participate in the FWC Senior Member Gala celebration highlighting the excellent work done by the Section in the elevation of record numbers of candidates to the coveted Senior Member Ranks
